Installer's guide to the
Worcester 2000

Because everyone deserves quality.

- The Worcester 2000 is our price competitive combi boiler, suitable for apartments, small and medium sized homes with one bathroom.
- As part of our winter promotion, the Worcester 2000 comes with a Greenstar Comfort+ II RF control included in the box.
- With hot water flow rates up to 12 l/min, the range also comes with a 5 year guarantee as standard, and a 6 year guarantee when installed with the Greenstar System Filter*.
- Peace of mind - comes with a 10 year guarantee* on the primary heat exchanger.
- Collect 10 points on our Greenstar Rewards programme - ability to use points to claim work wear, powertools and training.
- The 2000 series is only compatible with a selection of our controls. External 230V controls are not compatible.

6 YEAR Guarantee*

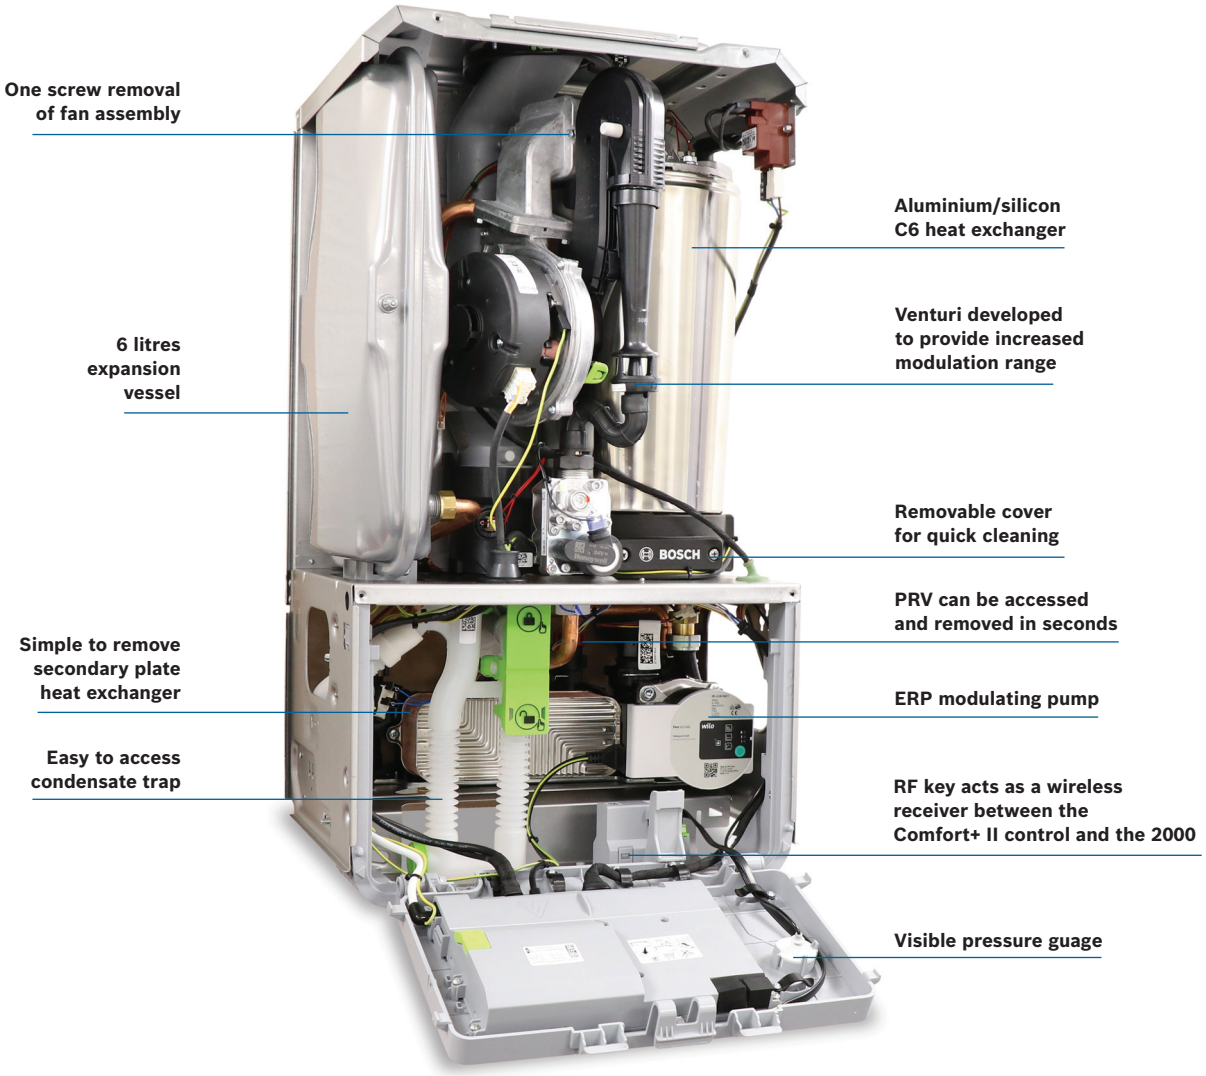
*Subject to terms and conditions.

Features

- Natural gas combi boilers with outputs of 25kW and 30kW.
- Quick to install with the ability to pipe vertically to the boiler.
- Easy access with removable side panels.
- Maximum flue lengths of 9m horizontally and 12m vertically (60/100).
- New C6 heat exchanger. An evolution to our tried and tested WB3 heat exchanger.
- Ability to modulate down to as little as 4.8kW.
- Quietest Worcester Bosch combi.
- Boiler Plus ready. Comes with a Greenstar Comfort+ II RF.

The Inside Story

Like our entire gas boiler range, you can be assured in knowing you have recommended and installed the best in reliability, all the while having the back up from the market leaders in technical and customer support. Once the individual side panels are removed, a host of additional installer benefits are revealed.



Boiler Control Display

The Worcester 2000 features a push-button LCD display, and incorporates diagnostic codes similar to that of our 8000 Lifestyle range, making day-to-day operation easy and reliable.

Greenstar Comfort+ II RF

As part of our promotion, the Greenstar Comfort+ II RF is included in every box. Our Greenstar Comfort+ II RF is a simple to use wireless control that allows your customer to access all control functions at a single, easily accessible location.

The control allows you to set up to six adjustable heating control and three hot water timings per day, using our simple temperature dial and an easy to use navigation menu.

Features and Benefits

- Easy to use control with a clear navigation menu
- Able to set up to six heating control and three hot water timings per day for maximum comfort
- Built in load compensation works to lower energy usage
- Flexibility of control through the room thermostat
- Includes a holiday mode for lowering energy usage even further when your customer is away
- Boiler plus compliant

Greenstar System Filter Range

The Worcester 2000 comes with a 5 year guarantee as standard. A 6 year guarantee, for added peace of mind, can be achieved when fitted with one of our Greenstar System Filters.

Our Greenstar System Filter range has been designed to combat the damaging effects of system debris and pollutants, allowing homeowners to protect their boiler for a fraction of its cost.

The Greenstar Mini System Filter, offers the same features as our current range but in a more compact size.

Our Greenstar Brass System Filter is the latest addition to our current range, embodying quality engineering and design, while delivering a powerful system protection for all boiler systems.

Technical data

MODEL		2000 25kW	2000 30kW
Part number		7 736 902 027	7 736 902 028
