

# No CORGI card? No gas spares!

## No excuses

From 1 January 2008, Parts Center will endeavour to only sell safety-critical\* gas parts to CORGI-registered installers.

As Europe's largest specialist supplier of spare parts with over 200 branches nationwide, we're cutting off the supply to those rogue gas installers who put lives at risk and threaten the livelihoods of real professionals like you.

So help us to help you. Just show your CORGI card every time you come in and we'll give you the first class service, top quality parts and competitive prices you deserve. No problem.
