RAPTOR®

HAND TOOLS & POWER TOOL ACCESSORIES

Exclusive to Wolseley

RAPTOR®

At Raptor we have one all encompassing, guiding goal:

"To provide trade professionals with quality tools and accessories designed precisely for Engineers and Installers very specific needs so that they can do their job and do it well."

Raptor is a brand that has been built from the ground up around this ethos.

How do we know what your needs are? We know, because we have worked on the same sites, squeezed ourselves into the same dark tiny spaces, scraped our knuckles on the same walls and cracked our heads on the same pipes. We have encountered the same challenges day in, day out and overcame them just like you have. We've been there, done that and got the T-Shirt. We are you.

But most importantly; We know what makes a good tool and what makes a bad one.

It's for that reason that we make sure that whatever the tool, be that a Pipe Cutter or a Wire Brush, a Hammer or a Screwdriver, a Holesaw or a Cutting Disc or any other Raptor Tool, Light or Accessory; it's been designed, engineered and tested for the sole purpose of making your life on site easier. Not harder.

RIP UP THE RULE BOOK

When the going gets rough, release the Raptor.

Nothing beats a Raptor hand tool. They're made to be uncompromising, to tear through the toughest jobs and to be the only one standing when the dust settles. A perfect marriage of form, function and ferocity, Raptor tools aren't waiting to be used, ***they're waiting to be unleashed.***

RAPTOR®

PIPE SLICES AND CUTTERS

PIPE SLICES AND CUTTERS

Pipe Slices and Cutters are to Heating and Plumbing Engineers what knives are to a Michelin Starred Chef; vital.

At Raptor we have cut more lengths of pipe than there have been reruns of Top Gear on Dave over the years. The result? We know what makes a great and more importantly, a bad pipe cutter.

We know that you want a clean, precise and square cut. You want to be able to use them single handedly without requiring forearms the diameter of a biscuit tin to turn them. You want them to work in the same tight and hard to reach spaces that you have to squeeze yourself into and what's more you want all of the above, consistently, day in, day out.

At Raptor we know this, because we have been there, done that and got the preverbal T-Shirt (and obligatory scraped knuckles). That's why our Raptor Pipe Slices and Cutters have been designed and engineered from the ground up and incorporates features like Titanium coated HSS blades that stay sharper for longer, wide rollers to ensure greater cutting accuracy and high grip Zinc Alloy bodies that mean your hands wont slip when wet.

Why do we do all this? To give you a professional range of Pipe Slices and Cutters that's as dependable as your day on site demands.

PIPE SLICES

Features

- *Twist and cut action gives accurate clean cuts on copper, brass and aluminium*
- *Narrow body design allows for greater clearance to other objects, enabling the cutter to be used in confined spaces*
- *Wide rollers improve cutting accuracy*
- *Heavy duty zinc alloy body with high grip coating reduces the chances of it slipping if your hands are wet*
- *Includes Titanium coated HSS blade which offers superior cutting performance and lifespan*
- *Replacement blades available*

Code	Description	Price £
R45533	Automatic pipe slice - 15mm	**9.99**
R45534	Automatic pipe slice - 22mm	**12.99**
R45535	Automatic pipe slice - 28mm	**15.99**

PIPE CUTTERS

Features

- *Suitable for cutting copper and plastic pipe*
- *Heavy duty zinc alloy body construction*
- *Includes Titanium coated HSS blade which offers superior cutting performance and lifespan*
- *Integrated Pipe Deburrer on 3-30mm and 16-54mm models*
- *Replacement blades available*

Code	Description	Price £
R45536	Compact pipe cutter - 3-16mm	**9.99**
R45537	High leverage pipe cutter - 3-30mm	**14.99**
R45538	High leverage pipe cutter - 16-54mm	**22.99**

REPLACEMENT PIPE CUTTER WHEELS

Features

- *HSS Cutting Blades offers high quality cutting performance*
- *Titanium Coated HSS Cutting Blades offers superior cutting performance and lifespan*
- *Universal Blade fitment - suitable for use with most branded pipe cutters*
- *Pack of 2*

Code	Description	Price £
R45539	Steel 16.2mm (pack of 2)	**2.99**
R45540	Titanium - 16.2mm (pack of 2)	**4.99**
R45541	Titanium - 18.6mm (pack of 2)	**4.99**
R45542	Titanium - 20.5mm (pack of 2)	**4.99**

PIPE SHEARS

Features

- *Heavy duty die cast steel construction*
- *Suitable for cutting plastic pipe and vinyl and rubber tubing*
- *Ratchet system allows for one handed operation*
- *Large pipe seat area is designed to support the pipe and help maintain a square cut*
- *Angled blade helps pierce and cut the pipe rather than crushing it*

Code	Description	Price £
R45543	Plastic pipe shears 0-42mm	**14.99**
R45544	Plastic pipe shears 0-63mm	**29.99**

PIPE BENDERS

PIPE BENDERS

We love the smell of a fresh pipe bend in the morning!

Or at least we would if it actually smelt – we imagine it to be a mix of bacon and new car... There is something just so satisfying about a perfectly formed pipe bend, especially a run of several, intertwining lengths of copper spaghetti that just makes the engineer in us feel all warm and fuzzy.

At Raptor we know that a good pipe bend is one that is smooth and accurate with no ripples or creases – all things that are only possible with a quality pipe bender, something that we have very much kept in mind when developing our Raptor manual pipe benders.

Designed to deal with the stresses of daily use on the jobsite whilst offering a truly professional finish; our Raptor pipe bender range are sure to be your default tool of choice (and creator of many warm and fuzzy feelings) for years to come.

HEAVY DUTY PIPE BENDER

Features

- *Heavy Duty tubular steel construction*
- *Portable, robust and simple to use*
- *Produces bends up to 90°*
- *Suitable for bending 15 & 22mm copper pipe (formers included)*
- *Replacement aluminium alloy formers available (R45546 and R45547)*

Code	Description	Price £
R45545	Heavy duty pipe bender - 15 & 22mm	**44.99**
R45546	Replacement former - 15mm	**7.99**
R45547	Replacement former - 22mm	**9.99**

MINI PIPE BENDER

Features

- *Precise and compact bender with integral formers; meaning no small parts to lose on site*
- *Produces bends up to 90°*
- *Handy reference marks for quick indication of 45° and 90° bends*
- *Suitable for bending 6,8 & 10mm soft copper pipe*

Code	Description	Price £
R45548	Mini pipe bender - 6, 8 & 10mm	**12.49**

THE CLAWS ARE OUT

When it's as tough as nails, you can rely on Raptor.

Whether it needs a delicate tap, or warrants an enthusiastic pound, 'it' will tap out and submit to your will, when you pull out a Raptor hammer. Perfectly formed, balanced and independently tested to DIN standards, so you can count on them. ***Every. Single. Time.***

RAPTOR®

PIPE FINISHING

PIPE FINISHING

You're the ultimate professional, someone that lets their work do the talking, a perfectionist engineer that doesn't do shortcuts.

You are the type of professional that we simply can't get enough of at Raptor; someone after our very own hearts. It's because of you (and the fact that we could be classed as obsessive in the pursuit of perfection) that we developed a range of Pipe Finishing products.

Spotted a burr on a bit of copper? Want to clean up a fitting prior to brazing? Want to file your nails before a night out? Whatever it is; we have the perfectionist in you covered.

DEBURRERS

Features

- *Internal and external pipe deburrer that produces a clean, professional finish on newly cut pipes*
- *Suitable for use on both plastic and copper pipes*
- *Deburrs up to 42mm pipe*

Code	Description	Price £
R45501	Internal & external pipe deburrer	**5.99**

PIPE FITTING BRUSH

Features

- *Handy 4-in-1 fitting brush enables the perfect preparation of pipes and fittings before soldering or brazing*
- *Suitable for use on copper, aluminium, stainless steel and steel pipe and fittings*
- *Fits both 15 and 22mm pipework and fittings*

Code	Description	Price £
R45502	4-In-1 pipe fitting brush	**5.99**

WIRE BRUSH

Features

- *Incorporates 3 rows of high carbon steel brushes to make light work of removing rust and dirt from metal components*
- *Integrated hardened steel scraper; perfect for removing loose, flaking paintwork prior to maintenance*
- *Ergonomic soft grip handle for added comfort and control*
- *Length: 345mm*

Code	Description	Price £
R45505	Wire brush - 3 row	**3.29**

UTILITY BRUSH SET

Features

- *Small head design - specifically developed for use in smaller, tighter spaces*
- *Stainless steel brush is ideal for finishing different types of metals, perfect for removing rust, scratches, dirt and small imperfections*
- *Brass brush is perfect for the cleaning and preparation of copper pipe and fittings prior to brazing, also suitable for use on brass, bronze and gold*
- *Twin pack*

Code	Description	Price £
R45506	Utility brush set (Twin pack)	**1.99**

PIPE FINISHING

FILE SET

Features

- *Double sided files offer a longer working life whilst being perfect for the fine finishing and alteration of copper, steel, hard metals and plastics*
- *Dual compound soft grip handle for improved comfort, grip and control*
- *8 inches in length*
- *Contents: flat, round and half round files*

Code	Description	Price £
R45503	8" files - 3 piece set	**10.99**

NEEDLE FILE SET

Features

- *Perfect for precise, delicate filing; particularly of pipes, fittings and brackets*
- *Dual compound soft grip handle for improved comfort, grip and control*
- *9cm blade length*
- *Contents: flat, triangle, round, half round, point, square diamond needle files*

Code	Description	Price £
R45504	Needle files - 6 piece set	**5.79**

JAW DROPPING POWER

Get things under control, quicker than you can say 'lockdown' with the Raptor quick clamp.

Pipes might start shaking when they see it, but with its incorporated pipe grooves, they're not budging once its gripping pads bite down on them with upto 120kg of pressure. ***Ouch.***

RAPTOR®

WRENCHES, SPANNERS AND SOCKETS

WRENCHES, SPANNERS AND SOCKETS

Probably one of the first tools on any discerning engineers list; wrenches, sockets and spanners are THE go to weapon of choice in so many applications that you're likely to encounter day in, day out on the jobsite that it's hard not to get that little bit personal about what you use.

For us at Raptor; an adjustable wrench needs to be precise; with machined jaws and an ultra-fine adjustment head. But that's not all, they also need to be stupidly strong and a comfortable handle.

When it comes to Water pump pliers, it's all about the speed of adjustability and that solid, vice like grip.

So that's what we developed; wrenches sockets and spanners that meet our specific needs, not those of a weekend DIY'er but instead installers and engineers who use these more often than an socialite uses a mobile phone.

Whether you are removing a bottle trap, tightening a showers back-nut, releasing a seized pipe from its fitting or simply locking down a compression fitting; the Raptor range has you covered.

PIPE WRENCH

Features

- *Ideal for use on pipe and fittings with a rounded surface or to remove old, seized pipework*
- *Heavy duty drop forged steel jaws with angled teeth grip into the pipe when pressure is applied*
- *Cast iron handle*
- *Suitable for up to 48mm diameter pipe*

Code	Description	Price £
R45518	Pipe wrench - 14"	**12.49**

ADJUSTABLE WRENCHES

Features

- *Durable chrome-vanadium steel construction*
- *Fine adjustment thumb turn enables accurate adjustment of the jaws width*
- *Slim-jaw head design; ideal for when used in confined spaces*
- *Laser-etched metric and Imperial scale on head allows for quick adjustment to correct size*
- *Phosphated and precision-hardened finish*

Code	Description	Price £
R45519	Adjustable wrench - 6" - 25mm jaw width	**8.99**
R45520	Adjustable wrench - 8" - 28mm jaw width	**10.99**
R45521	Adjustable wrench - 10" - 33mm jaw width	**14.99**
R45522	Adjustable wrench - 12" - 38mm jaw width	**19.99**

SUPERWIDE ADJUSTABLE WRENCH

Features

- *Compact design; perfect for use in awkward, confined spaces such as under a sink*
- *Superwide jaw design, ideal for torquing up or loosening plastic nuts on waste systems*
- *Lightweight alloy construction with excellent corrosion resistance*
- *Max jaw width: 68mm*

Low Torque Design - Not to be used for Heavy Duty work or to be impacted by a striking tool such as a hammer

Code	Description	Price £
R45523	Superwide adjustable wrench - 16-68mm jaw width	**14.99**

WATERPUMP PLIERS

Features

- *Durable chrome-vanadium forged steel construction*
- *Quick release slide button provides rapid Jaw width adjustment*
- *Multi-groove ratcheting system allows for micro adjustment of jaw width*
- *Dual compound soft grip handle for improved comfort, grip and control*
- *Corrosion resistant coating*

Code	Description	Price £
R45524	Waterpump pliers - 8" - 55mm jaw width	**10.99**
R45525	Waterpump pliers - 10" - 75mm jaw width	**12.99**

WRENCHES, SPANNERS AND SOCKETS

BOX SPANNER SET

Features

- *A practical set of Box Spanners in the 10 most common sizes encountered by installers and engineers*
- *Constructed from rust resistant durable nickel plated steel*
- *Contents: 8x9, 10x11, 12x13, 14x15, 16x17mm and handle*

Code	Description	Price £
R45530	Box spanner set - 5pc	**9.99**

SOCKET SET

Features

- *Convenient pocket sized set containing the most commonly used sizes of sockets and driver bits*
- *Mini ratchet handle, perfect for use in tight, confined spaces*
- *Colour coded ultra high spec S2 sandblasted steel 1/4" driver bits*
- *Durable chrome-vanadium forged steel sockets*
- *Hard plastic storage case*
- *Contents: 10pc S2 25mm driver bits: PZ1, PZ2, PZ3, PH1, PH2, PH3, T10, T15, T20, T25. sockets: CR-V 4, 4.5, 5, 5.5, 6, 7, 8, 9, 10, 11, 12 13mm, 1pc 1/4 bit holder, 1pc 100mm socket holder, 1pc ratchet handle*

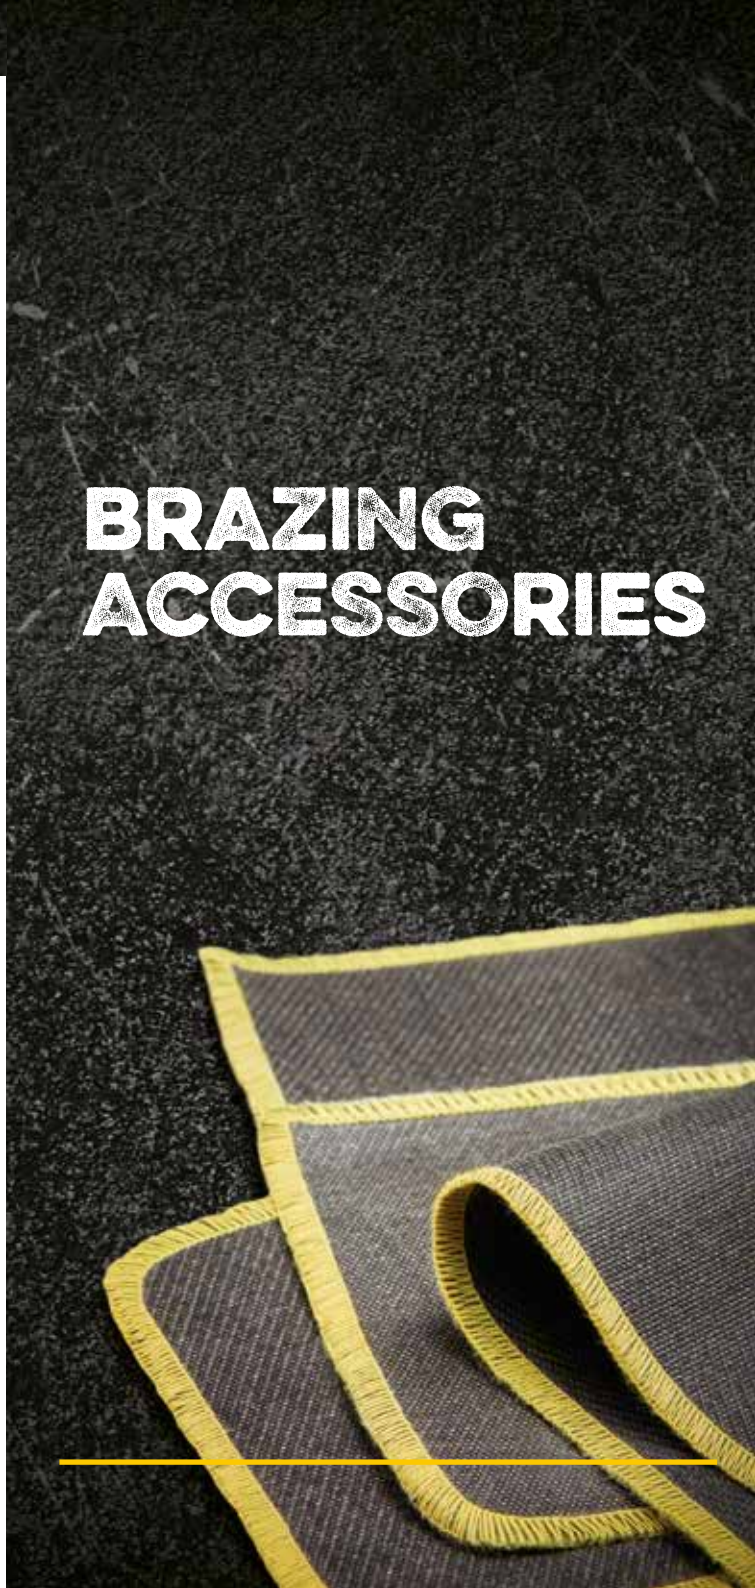
Code	Description	Price £
R25670	Mini drive set - 25 pieces	**14.99**

TELESCOPIC BASIN WRENCH

Features

- *Chrome plated for improved corrosion resistance*
- *Self-Locating spring loaded hook allows the wrench to act like a ratchet; allowing for smaller turns, perfect for when access is restricted*
- *Integrated T-bar allows for greater leverage*
- *Fits 3/8" (9mm) to 1-1/4" (32mm) backnuts*
- *Extends from 270-450mm*

Code	Description	Price £
R45532	Telescopic basin wrench - 270-450mm	**11.49**



BRAZING ACCESSORIES

Brazing and Soldering; the use of fire to heat and melt metal in order to form a join – let's be honest; could anything sound more poetic or be more fun to do?

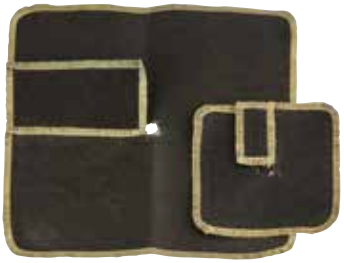
If you're a Heating Engineer you're likely to be a master of precision metalworking; brazing fittings and pipes together to form intricate pieces of what we at Raptor feel should be classified as functional art.

That's why we developed our Raptor Brazing accessories; a high quality, no frills and functional range of accessories that enable you and your trusty brazing torch to create metal miracles.

SOLDERING MAT

Features

- *Pipe cut out allows for mat to be wrapped around pipe, reducing risk of damage to surrounding area*
- *Asbestos free material*
- *Max temp: 550ºC*
- *Contents: 1 x 150mm x 150mm mat and 1 x 300m x 300mm mat*



Code	Description	Price £
R45549	Soldering mat set - 2-piece set	**14.99**

FLUX BRUSHES

Features

- *Specially shaped to aid application of flux to joints prior to brazing*
- *Pack of 5*

Code	Description	Price £
R45531	Flux brushes (pack of 5)	**2.49**

BEWARE!
OUR SAW BLADES ARE HERE.

We don't make 'normal' saw blades at Raptor.

We make tungsten carbide-tipped, perfectly tensioned, razor-sharp, 'like a hot knife through butter, day-in-day-out' saw blades.
Why cut it, when you can Raptor it.

RAPTOR®

PLUNGERS AND UNBLOCKERS

PLUNGERS AND UNBLOCKERS

We'll admit, unblocking a sink or shower is rather low on our list of enjoyable jobs we have faced on site, Honestly? Hands down we'd rather make a round of tea for everyone.

So, when it comes to it, we at Raptor know how important it is to have a tool arsenal that allows us to do the job quickly, efficiently, preferably as cleanly as possible and most importantly of all; once.

Our Raptor range of plungers and unblockers allow you to do just that, no messing, just effective, quality solutions to a variety of drainage problems.

CONCERTINA PLUNGER

Features

- *High suction and pressure output results in the quick removal of blockages without the use of harmful chemicals*
- *Easy to clean plastic construction*
- *Plunger diameter: 123mm*
- *Length: 450mm*

Code	Description	Price £
R45551	Concertina plunger	**9.99**

RUBBER PLUNGER

Features

- *Safely unblocks sink, bath and shower wastes without the use of chemicals*
- *Easy to clean plastic and rubber construction*
- *Plunger diameter: 108mm*
- *Length: 470mm*

Code	Description	Price £
R45552	Rubber plunger	**2.69**

PUMP ACTION UNBLOCKER

Features

- *Suitable for clearing blockages in sinks, baths and shower trays quickly & easily without mess or the use of harmful chemicals*
- *Larger cylinder capacity than DIY versions results in a higher pressure output and a more effective plunging action*
- *Plunger diameter: 180mm*

Code	Description	Price £
R45553	Pump action unblocker	**9.99**

ROD UNBLOCKER

Features

- *Incorporates a flexible metal rod that corkscrews through pipes clearing blockages*
- *Flexible rod design enables it to reach around corners and locate blockages*
- *Compact, self containing design*
- *7.6m length rod*

Code	Description	Price £
R45554	Rod drain unblocker	**18.99**

MISCELLANEOUS PLUMBING TOOLS

MISCELLANEOUS PLUMBING TOOLS

There are some combinations that just work well together; Fish & Chips, Ant & Dec, Simon & Garfunkel... the list goes on.

However, sometimes, try as you might you just can't seem to make things fit together and that's the very case here; exceptional Plumbing Tools that no Installer should be without, all created with true professional users in mind that we simply can't combine them with any other section.

So if there is a plumbing tool you can't find... Well it may be in here...

HEAVY DUTY SEALANT APPLICATOR GUN

Features

- *Heavy duty carbon steel construction*
- *3-Bar plunger system allows for greater pressure as well as improved control and consistency of dispensing*
- *Quick release switch for easy loading and ejection of cartridges*
- *Suitable for 300-310ml cartridges*
- *Max pressure 2400N*

Code	Description	Price £
R45584	Heavy duty sealant gun	**8.19**

STANDARD DUTY SEALANT APPLICATOR GUN

Features

- *Carbon steel construction*
- *Quick release switch for easy loading and ejection of cartridges*
- *Suitable for 300-310ml cartridges*

Code	Description	Price £
R45585	Standard duty sealant gun	**3.59**

INSPECTION MIRROR

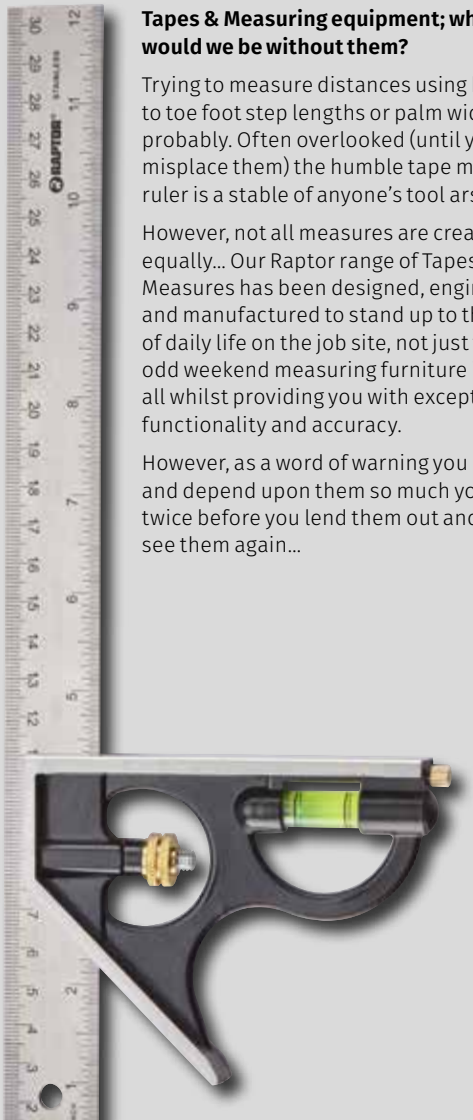
Features

- *Incorporates an LED light which helps improve visibility in hard to access locations*
- *Oversized 55mm diameter inspection mirror allows for greater viewing angles*
- *245-930mm stainless steel telescopic arm*
- *Battery: 2x CR2016 (included)*

Code	Description	Price £
R45556	LED light inspection mirror	**9.99**

TAPES AND MEASURES

TAPES AND MEASURES



Tapes & Measuring equipment; where would we be without them?

Trying to measure distances using heel to toe foot step lengths or palm widths probably. Often overlooked (until you misplace them) the humble tape measure or ruler is a stable of anyone's tool arsenal.

However, not all measures are created equally... Our Raptor range of Tapes & Measures has been designed, engineered and manufactured to stand up to the rigours of daily life on the job site, not just the odd weekend measuring furniture in Ikea; all whilst providing you with exceptional functionality and accuracy.

However, as a word of warning you may like and depend upon them so much you'll think twice before you lend them out and never see them again...

TAPE MEASURES

Features

- *Incorporates both metric and imperial scales*
- *Class II accuracy blade*
- *Nylon Coated Blade for added resistance to the elements*
- *Magnetic hook end - makes measuring from metal surfaces much easier, especially useful when measuring greater lengths*
- *Zero end point hook floats in order to provide an accurate measurement whether you butt up to or hook over an object*
- *Bi-material case provides exceptional grip and comfort*

Code	Description	Price £
R45475	Tape measure - 5m	**5.49**
R45476	Tape measure - 10m	**10.99**

RULER

Features

- *Metric scale*
- *Class II accuracy blade*
- *Stainless steel construction offers exceptional corrosion resistance*
- *Conversion chart on rear - perfect for on the job calculations*

Code	Description	Price £
R45477	Stainless steel ruler - 300mm	**1.59**

COMBINATION SQUARES

Features

- *Incorporates both metric and imperial scales*
- *Integrated spirit level and scriber*
- *Built-In 45° & 90° angles*
- *Sliding adjustable depth gauge*
- *Rust resistant finish*

Code	Description	Price £
R45478	Combination square - 300mm	**6.59**

LASER MEASURES

Features

- *Quick, easy and accurate point to point measuring, perfect for measuring longer distances*
- *Easy to read backlit display*
- *Switch between top or bottom measurement allowing you to measure from or butting up to an object*
- *Continuous measurement function, ideal for construction use*
- *Dual compound soft grip case for improved comfort, grip and control*
- *+ / - 3mm accuracy*
- *Battery: 2 x AAA (included)*

Code	Description	Price £
R25668	Laser measure - 100ft/30m	**65.19**

TAPES AND MEASURES

MARKING

Features

- *Oversized graphite core - perfect for marking on rough surfaces as well as producing fine lines.*
- *Elliptical body - prevents pencil from rolling away whilst also making them easier to grip*
- *Highly visible 'Raptor yellow' finish - makes them much easier to spot in your tool bag or on site*
- *Contents: 12 pencils and 1 sharpener*

Code	Description	Price £
R45479	Carpenters pencils & sharpener - 12-piece set	**4.99**

DRILL BITS WITH MORE BITE!

Even the toughest surfaces tremble at the sound of our drill bits.

Maybe it's their razor-sharp cutting edges, or it could be their ruthlessly-efficient optimised flutes, either way they're the professionals' dream bit, ***and every surface's worst nightmare.***

RAPTOR®

LEVELS

LEVELS

Installed a Pipe Run? Boiler? Bath? Shower? Sink? Drain Stack? Guttering? The list is pretty much endless of the jobs you face on site.

However, they all have one thing in common, you, being the true professional that you are, will have used a level to ensure that whatever it is you have installed is level, true, square and plumb.

Our Raptor levels are, in our eyes a thing of beauty. I appreciate we may be biased but use them and you are certain to come around to our point of view. Taker our heavy duty, Plumbers specific box levels for example, not only do they incorporate incredibly accurate box vials and a magnetic pipe groove to name a few. They also incorporate our personal favourite feature; VertiSite™ which allows you to check an object is Plumb from the front of the level – perfect when space is tight.

Our Plumbers Torpedo level is also a work of art, again featuring VertiSite™ in a rather lovely billet of Aluminium. These aren't just levels. These are Raptor Levels.

In fact, our Raptor Levels are so well built your other half will never believe you when you ask them to buy you a new bubble. Shame really...

POCKET LEVEL

Features

- *Lightweight aluminium box construction - perfect to keep in your work trousers pocket*
- *Single easy-view box vial*
- *Shock resistant end caps*
- *Accuracy 0.5mm/m*

Code	Description	Price £
R45480	Pocket level	**3.49**

PLUMBERS TORPEDO LEVEL

Features

- *Includes Verti-Site™ vial for easy vertical viewing*
- *V-Groove edge, perfect for use on round surfaces such as pipes*
- *Incorporated rare earth magnets for maximum holding power on metal surfaces*
- *Lightweight and solid aluminium billet construction with machined edges for accurate readings*
- *3 Easy-view vials: 45°, 90° & 180°*
- *0.029° or .0005 inches vial accuracy in bottom position*

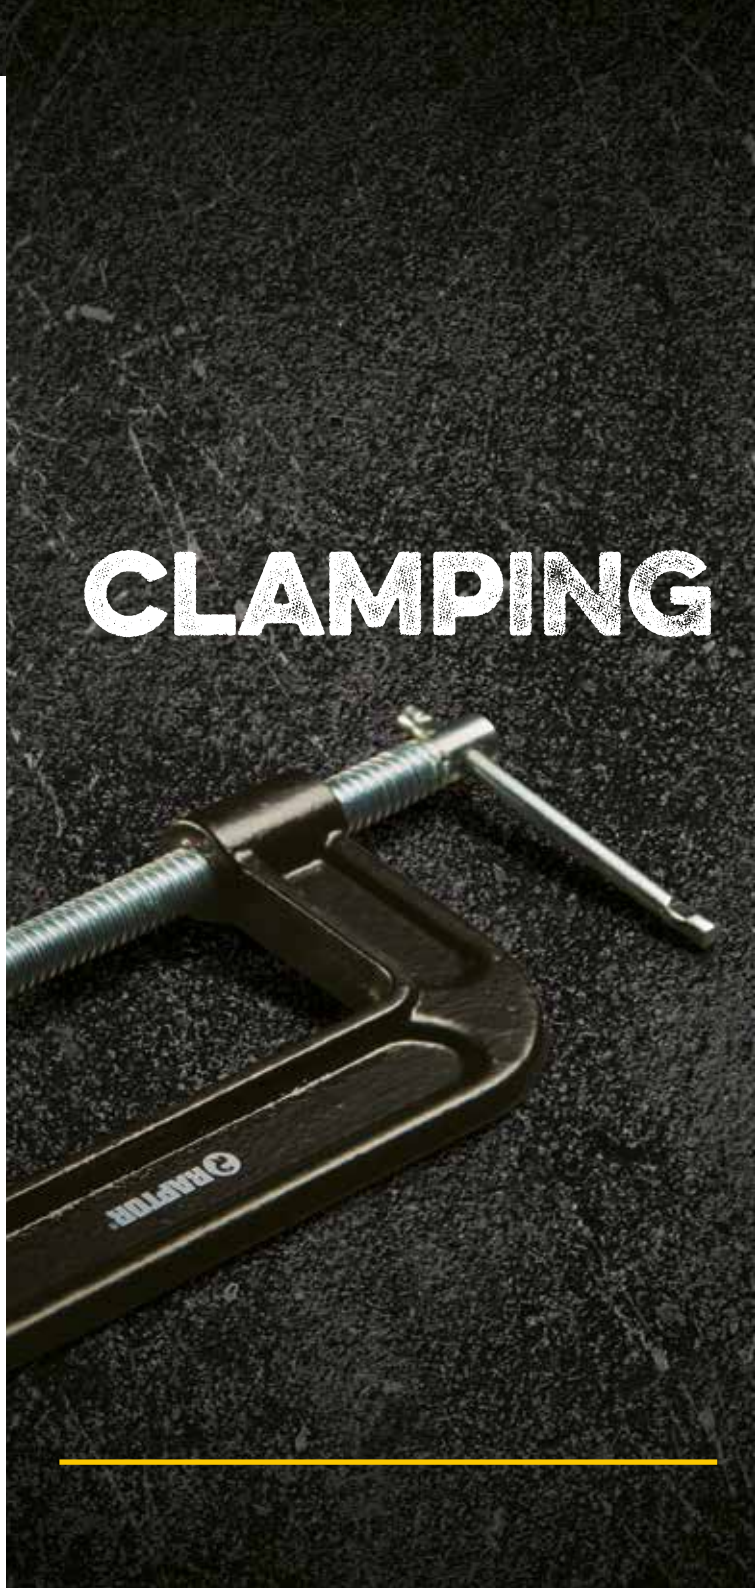
Code	Description	Price £
R45481	Plumbers torpedo level - 225mm	**19.99**

PLUMBERS BOX LEVELS

Features

- *Includes Verti-Site™ vial for easy vertical viewing*
- *V-Groove edge, perfect for use on round surfaces such as pipes*
- *Incorporated Neodymium magnets for excellent holding power on metal surfaces*
- *Lightweight aluminium box beam construction with machined edges for accurate readings*
- *3 Easy-view vials: 45°, 90° & 180°*
- *Shock resistant end caps*
- *0.029° or .0005 inches vial accuracy in bottom position*

Code	Description	Price £
R45482	Plumbers box level - 600mm	**24.99**
R45483	Plumbers box level - 900mm	**34.99**
R45484	Plumbers box level - 1200mm	**42.99**



CLAMPING

Admit it, at some point you have been balancing an awkward, no doubt heavy object with some body part; perhaps your elbow, shoulder, head or maybe even your chin as sweat pours off you, your breathing laboured and you mutter profanities quietly under your breathe as you attempt to fix it in place.

We know you have, because at Raptor we have as well; probably more often than we'd care to admit.

If only there were a solution... well there is, it's called a 'Clamp' and to be honest they've been around for some time...

Our Raptor range of clamps have been designed to make your life easier; it's not the widest range and it certainly wouldn't make a master carpenter swoon. But they are engineered around your requirements whilst on site. Take our Quick Clamps for example which incorporate 'Pipe Grooves' into the gripping pad; reducing the chance of a pipe slipping whilst clamped, something we know is beyond frustrating.

So the next time you're struggling to hold something in place, trying to squeeze two pipe runs together or if you simply want to see how much you can squeeze your thumb before it turns blue* remember to reach for a Raptor Clamp.

** Raptor does not recommend this type of behaviour. It is stupid. Don't do it.*

G-CLAMPS

Features

- *6' clamp opening - perfect for a vast variety of holding tasks you're likely to encounter on site*
- *Heavy duty cast iron construction with reinforced shoulders*
- *Provides a sustained and controllable clamping force*
- *Max loading weight: 70kg*

Code	Description	Price £
R45485	Heavy duty G clamp - 6"	**6.59**

QUICK CLAMPS AND SPREADERS

Features

- *Can be quickly converted from a clamp to spreader without the use of tools - offering the ultimate in flexibility*
- *One handed operation - allows you to hold an object in position whilst it is being clamped*
- *Quick-release trigger for rapid positioning*
- *Soft padded jaws include vertical and horizontal pipe grooves to protect delicate pipes whilst also reducing the chance of them slipping when clamped*
- *Soft Grip handles for improved comfort and grip*
- *Max clamping pressure: 120kg*

Code	Description	Price £
R45587	Quick clamp - 6"	**11.99**
R45588	Quick clamp - 12"	**13.49**

JAW DROPPING POWER

Get things under control, quicker than you can say 'lockdown' with the Raptor quick clamp.

Pipes might start shaking when they see it, but with its incorporated pipe grooves, they're not budging once its gripping pads bite down on them with upto 120kg of pressure. ***Ouch.***

RAPTOR®

KNIVES AND BLADES

KNIVES AND BLADES

As essential tools go it's hard to beat a trusty, high quality knife when on site.

For us we'd go as far to say that they are right up there with Tape Measures, Screwdrivers and Water Pump Pliers. At Raptor, we have spent enough time on site to know that it's infuriating when you misplace a good knife, but even worse when you have no choice but to use a bad one.

It's for that reason we have designed our knives and blades to function perfectly and reliably day in day out, just like you expect them to because at Raptor we know you have enough to deal with on site, let alone a tool that's not up to the job. Our Raptor knives even feature the same Titanium coated steel Blade technology as our exceptional Pipe Cutters. The result? A blade that stays sharper for longer meaning you have to replace it less.

Cutting through plasterboard? Opening a box? Want to look like Rambo and need a makeshift bandana? Whatever you need a knife for (within reason); make sure you reach for a Raptor Knife.

RETRACTABLE KNIVES

Features

- *Retractable locking blade design, offers both safety and functionality*
- *Quick change blade mechanism, perfect for rapid on site changes*
- *Integrated string/wire cutter*
- *Large ergonomic non-slip rubber handle*
- *Convenient storage for 5 blades in the handle, making it perfect for everyday site use*
- *Includes 5 x long life Titanium coated SK5 blades*

Code	Description	Price £
R45489	Retractable utility knife	**9.99**

FOLDING KNIVES

Features

- *Lock back design - improves safety whilst also reducing size; perfect for keeping in your work trouser pockets*
- *Quick change blade mechanism - perfect for rapid on site changes*
- *Lightweight anodized aluminium handle for improved durability and resistance to the elements*
- *Strong and durable stainless steel belt clip*
- *Includes 10 x long life Titanium coated SK5 blades*

Code	Description	Price £
R45486	Folding utility knife	**8.99**

TITANIUM COATED REPLACEMENT BLADES

Features

- *Long life Titanium coated SK5 blades, stays shaper for longer meaning fewer blade changes*
- *Universal fitment, suitable for use with a majority of branded utility knives*
- *Pack of 10 blades*

Code	Description	Price £
R45487	Knife blades - Titanium coated SK5 (pack of 10)	**2.99**

REPLACEMENT BLADES

Features

- *Durable SK5 blades, ideal for cutting a variety of materials*
- *Universal fitment, suitable for use with a majority of branded utility knives*
- *Clever holder allows single or 5 blades to be dispensed at a time*

Code	Description	Price £
R45488	Knife blades - SK5 (pack of 50)	**6.99**

SAWS AND BLADES

SAWS AND BLADES

Chances are that when most people think of a Saw it invokes images of saw dust riddled woodworking shops and felled trees in the middle of a forest.

Well not us, instead we imagine cutting through lengths of guttering, waste pipe and conduit, repositioning joists or creating box frames and removing old pipework.

We admit, they may not be the first thing that comes to mind when you're building your tool arsenal wish list.

However, anyone that works on site knows just how invaluable they can be on a daily basis. That's why we developed a range of Saws and replacement blades that make sure you're never left wanting on the jobsite.

The range isn't extravagant and over complicated, we've said it before; we aren't Master Carpenters, instead we are Plumbers, Installers and Engineers, we are you. We know what you need to do your job and more importantly what you expect; a tool to work and work well and with this range we have no doubt that'll be your thoughts also.

JUNIOR HACKSAW

Features

- *Balanced and durable solid metal frame, reduces flex to provide precision cuts*
- *Simple blade removal and tensioning via single screw*
- *Dual compound soft grip handle for improved comfort, grip and control*
- *Includes a 32TPI carbon steel blade*
- *Replacement blades available: R45498*

Code	Description	Price £
R45490	Junior hacksaw - 32TPI - 6"	**5.49**

MINI HACKSAW

Features

- *Clever, compact design, perfect for cutting objects in awkward, confined spaces where there isn't enough room for a junior hacksaw*
- *Robust and lightweight aluminium alloy frame*
- *Dual compound soft grip handle for improved comfort, grip and control*
- *Includes a 32TPI bi-material steel blade*

Code	Description	Price £
R45491	Mini hacksaw - 32TPI - 10"	**5.49**

HACKSAW

Features

- *Robust and lightweight aluminium alloy frame offers quick, easy and precise cutting*
- *Simple blade removal and tensioning via single screw*
- *Dual compound soft grip handle for improved comfort, grip and control*
- *Includes a 32TPI bi-material steel blade*
- *Replacement blades available: R45499 or R45500*

Code	Description	Price £
R45492	Hacksaw - 18TPI - 12"	**13.99**

HACKSAW BLADES

Features

- *Replacement junior hacksaw blades are made from hardened and tempered carbon steel - perfect for fast, precision cuts in a variety of materials including metal, plastic and wood*
- *Replacement hacksaw blades are shatterproof and near indestructible bi-metal blades with precision teeth; perfect for sawing a vast array of metals. Provides both supreme cutting performance and wear resistance with a high degree of flexibility*
- *Universal fitment - suitable for use with a majority of branded junior and 12" hacksaws*

Code	Description	Price £
R45498	Junior hacksaw blades 32TPI (pack of 10)	**2.99**
R45499	Hacksaw blades 32TPI - 12" (pack of 2)	**4.49**
R45500	Hacksaw blades 18TPI - 12" (pack of 2)	**4.49**

PLASTERBOARD SAWS

Features

- *Extra strong blade with pointed tip is perfect for piercing and cutting plasterboard*
- *Triple ground teeth cut on both push and pull strokes for increased efficiency*
- *Dual compound soft grip handle for improved comfort, grip and control*
- *Includes canvas pouch with integrated belt hook for safer storage and transport*

Code	Description	Price £
R45493	Plasterboard saw - 6"	**7.99**

TENON SAW

Features

- *Durable and accurate saw with a reinforced steel spine, perfect for both cross and rip cutting and for use with a mitre box for precise cuts*
- *Double ground teeth*
- *Able to cut multiple materials including wood, plastic pipe, plaster board, fibre board etc*
- *Dual compound soft grip handle for improved comfort, grip and control*
- *12TPI polished SK5 steel blade*

Code	Description	Price £
R45494	Tenon saw - 12TPI - 12"	**9.99**

HANDSAWS

Features

- *Heavy duty saw that offers high precision and rapid cutting through a variety of materials, perfect for when speed is of the essence*
- *Triple ground teeth cuts on both push and pull strokes for increased efficiency*
- *Able to cut multiple materials including wood, plastic pipe, plaster board, fibre board etc*
- *45º and 90º cutting angle guides and mid-point measurement scale on the blade are perfect for 'on the fly' calculations on site*
- *Dual compound soft grip handle for improved comfort, grip and control*
- *9TPI SK5 steel blade*

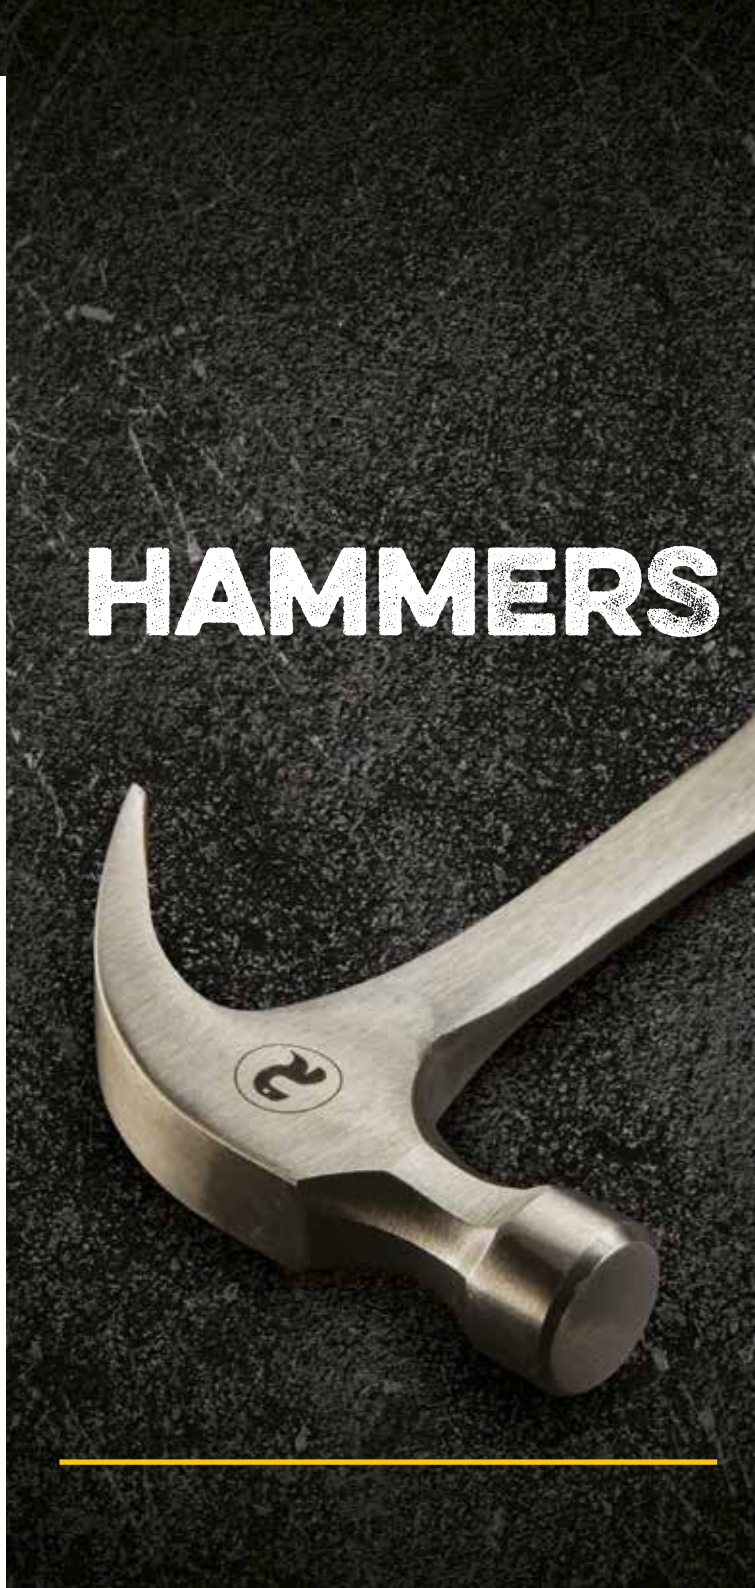
Code	Description	Price £
R45495	Toolbox saw - 9TPI - 14"	**6.99**
R45496	Panel saw - 9TPI - 20"	**8.99**

MITRE BOXES

Features

- *Heavy duty construction*
- *Countersink slots enable it to be mounted to a work bench for improved stability whilst cutting*
- *Incorporated 45° and 90° cutting angle guides*

Code	Description	Price £
R45497	Mitre box	**4.19**



HAMMERS

Hammers and Mallets, or as we at Raptor often refer to them; "Persuasion Sticks".

At Raptor we know that no matter how precise an Engineer or Installer you are; there will always be a need to either delicately tap or enthusiastically pound something whilst on the jobsite; and when those needs arrive only a trusty hammer will do.

Now, at Raptor we aren't carpenters, we don't need a Titanium and leather shod sculpted piece of art that'd you'd be scared to even use. Instead, we want something that when you rescue it from the bottom of your tool bag, you know it's going to perform. Every. Single. Time.

That's why our Raptor Club and Claw hammers have been independently tested to DIN standards to ensure a safe, reliable and quality hammer that will stand up to even the toughest of tests.

So, whether you're using a hammer to drive a nail, tweak a boilers position, demolish a stud wall, convince a part to fit or even to re-enact your favourite scene from Thor; you can be confident that our Raptor range will have you covered.

CLAW HAMMERS

Features

- *16oz one-piece carbon steel construction - perfect for a vast array of hammering tasks on site*
- *Precision balanced head for reduced fatigue and improved control*
- *Claw head for nail extraction and demolition*
- *Dual compound soft grip handle for improved comfort, grip and control*
- *Compliant with DIN1193 standard*

Code	Description	Price £
R45507	1-Piece claw hammer - 16oz	**12.49**

CLUB HAMMERS

Features

- *2.2lb club hammer ideal for delivering close, heavy blows and the breaking up of materials commonly found on the job including concrete and brickwork*
- *Precision ground striking faces to withstand repeated heavy impacts*
- *Bi-material fibreglass handle*
- *Dual compound soft grip handle for improved comfort, grip and control*
- *Compliant with DIN1193 and DIN6475 standards*

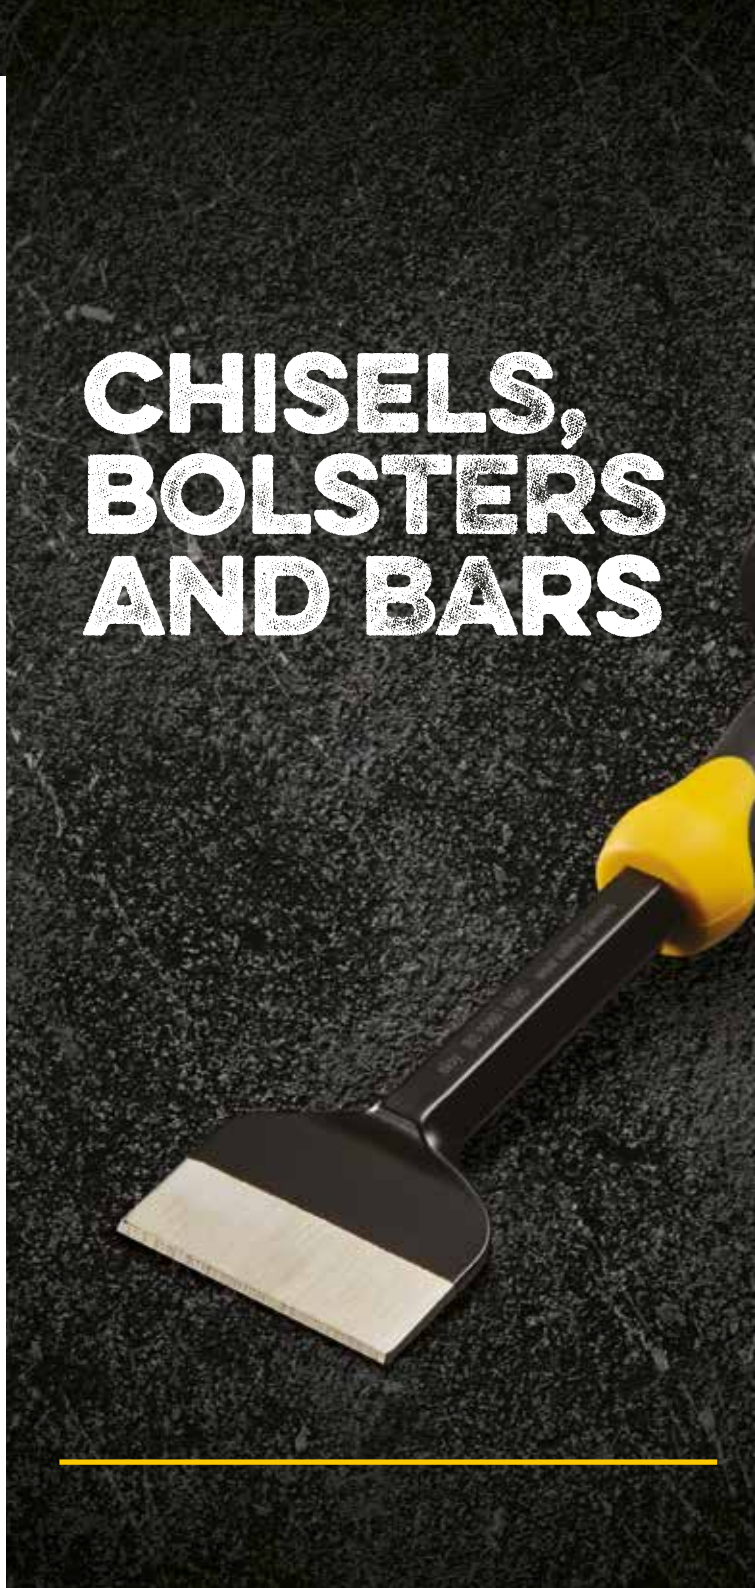
Code	Description	Price £
R45508	Fibreglass club hammer - 2.2Lb	**8.49**

MALLETS

Features

- *16oz solid white rubber head, perfect for use on more delicate objects where Steel simply isn't suitable*
- *Non-marking head*
- *Comfortable ash handle*

Code	Description	Price £
R45509	Interior mallet - 16oz	**5.49**



CHISELS, BOLSTERS AND BARS

On site demolition is something that all Installers and Engineers routinely face.

For us at Raptor, we personally look forward to it, we treat it as our version of therapy, a way to unwind and release some pent up aggression.

However, therapy can quickly transform to hell if you don't have the right tool for the job.

Our Raptor range of Chisels, Bars and Bolsters have been engineered to ensure that your therapy session remains that happy, refreshing affair that it should be.

So whether you're using our sandblasted tipped Bolsters to remove a brick for a vent, Our Utility Bars to lift floor boards or even our Through Tang Wood Chisels to make space for a pipe run; at Raptor we have you covered.

COLD CHISELS

Features

- *Ideal for the cutting, chipping and shaping of harder materials such as brickwork, stone and concrete*
- *Sandblasted tip stays sharper for longer*
- *Heat treated and hardened steel construction*
- *Powder coated hexagonal shaft for improved durability*

Code	Description	Price £
R45510	Cold chisel - 1/2" x 9"	**3.99**
R45511	Cold chisel - 1" x 12"	**6.99**

BRICK BOLSTERS

Features

- *Ideal for the cutting, chipping and shaping of harder materials such as brickwork, stone and concrete*
- *Sandblasted tip stays sharper for longer*
- *Heat treated and hardened steel construction*
- *Incorporated guard protects from overstrikes whilst also offering improved comfort, grip and control*
- *Powder coated hexagonal shaft for improved durability*

Code	Description	Price £
R45512	Brick bolster & guard - 3" x 11"	**8.49**
R45513	Brick bolster & guard - 4" x 11"	**9.99**

WOOD CHISELS

Features

- *Tough and dependable wood chisel set that's perfect for tackling intricate and demanding jobs with ease*
- *Hardened and tempered Cr-V blade ensures superior edge retention; remaining sharper for longer*
- *One piece thru-tang design with large metal strike plate offers the ultimate in control and performance*
- *See-thru acetate handle and lacquered blades provide increased corrosion resistance and superior durability*
- *Contents: 13, 19 and 25mm*

Code	Description	Price £
R45514	Thru-Tang wood chisels - 3 piece set	**19.99**

DEMOLITION AND PRYING BARS

Features

- *Utility bar: ideal for use in tighter areas and suitable for light duty prying and the lifting of nails*
- *Wrecking bar: perfect for heavy duty demolition needs; its shaped heading giving it increased leverage*
- *Heavy duty forged steel construction*
- *Sandblasted tip stays sharper for longer*

Code	Description	Price £
R45515	Wrecking bar set - 13" & 24"	**17.99**
R45516	Wrecking bar - 36"	**13.49**
R45517	Utility bar - 21"	**6.99**

HEX AND TORX KEYS

HEX AND TORX KEYS

Remember when a Slotted and Philips head screwdriver would cover 99% of your needs on site? We do. Fondly.

These days the plethora of screw head types is simply staggering, from Tri-Wing to Fluted, Mor-Torq to Clutch – frankly it can be confusing. However, there are a couple of standards that we simply don't leave home without; Hex and Torx.

These little beauties have become commonplace in the Heating and Plumbing world and a high-quality set of keys is paramount to not strip the heads of bolts (and to avoid the obligatory profanities when you do). That's why we developed our exceptional Raptor hardened and tempered Cr-V Steel Hex and Torx key set which includes all of the common sizes you're likely to need on site.

What's more, our Hex Keys also feature ball ends; making them perfect for those hard to reach places. We even colour coded them just to make your life that little bit easier. You can also use them on your flat packed furniture too - well, there has to be an upside to building furniture, right?

HEX AND TORX KEY SETS

Features

- *Hardened and tempered Cr-V construction*
- *Ball end on long arm Hex allows for 30° access - perfect for reaching hard to access bolt heads*
- *Colour coded design - makes it easier to select the right tool first time*
- *Includes a sturdy storage case to keep the keys organised*
- *Contents: Hex: 1.5, 2, 2.5, 3, 4, 5, 6, 8, 10mm Torx: T10, T15, T20, T25, T27, T30, T40, T45, T50*

Code	Description	Price £
R45555	Hex & Torx keys - 18 piece set	**19.99**

THE CLAWS ARE OUT

When it's as tough as nails, you can rely on Raptor.

Whether it needs a delicate tap, or warrants an enthusiastic pound, 'it' will tap out and submit to your will, when you pull out a Raptor hammer. Perfectly formed, balanced and independently tested to DIN standards, so you can count on them. ***Every. Single. Time.***

RAPTOR®

PLIERS AND CUTTERS

PLIERS AND CUTTERS

Pliers and Cutters are one of the earliest known tools, having been used for thousands of years in forges. That's all very interesting but frankly we don't really care.

What we care about are the ones we use on site today - although we can appreciate that even then, people understood the mechanical advantage a pair of pliers can provide. There are now thousands of combinations of pliers available on the market for you to choose from and it can be all a little bit confusing.

Want to know what we think? The original modern combinations are still the best, just like the original Star Wars films. Combination pliers, Long Nose Pliers, Diagonal Cutters, Locking Pliers, Tin Snips... All have been refined and honed over the years to provide you with true performance and functionality – and the same can absolutely be said of our Raptor range; a well thought out and developed range that's more than up to the daily barrage of use by professionals, not just the odd weekend in the shed.

PLIERS – NON VDE

Features

- *Durable chrome-vanadium steel construction*
- *Precision head design with machined jaws for maximum gripping strength*
- *Induction hardened blade edges for exceptional cutting performance*
- *White nickel finish for improved corrosion resistance*
- *Dual compound soft grip handles for improved comfort, grip and control*

Code	Description	Price £
R45557	Combination pliers - 8"	**7.99**
R45558	Long nose pliers - 8"	**7.99**
R45559	Diagonal cutting pliers - 7"	**7.99**

MULTITOOL PLIERS

Features

- *Incredibly versatile and compact 15-in-1 multi-tool*
- *Stainless steel finish for improved corrosion resistance*
- *Lightweight anodized aluminium handle for improved durability and resistance to the elements*
- *15 functions: Long nose pliers, standard pliers, wire cutter, wire stripper, fine edge blade, saw, can opener, small slotted screwdriver, medium slotted screwdriver, Phillips screwdriver, bottle opener, large slotted screwdriver, serrated blade, file*

Code	Description	Price £
R45586	Multitool pliers - 15-In-1	**13.99**

CIRCLIP PLIERS

Features

- *Quick change head design allows pliers to be used on both internal and external circlips*
- *Effectively 8 circlip pliers in 1*
- *Carbon steel construction*
- *Contents:*
  1.2mm tipped jaw straight,
  1.5mm tipped jaw straight,
  1.5mm tipped jaw - 45º
  1.5mm tipped jaw - 90º

Code	Description	Price £
R45560	Circlip pliers - 4-In-1	**4.49**

LOCKING PLIERS

Features

- *Locking curved jaw design is perfect for use with pipes, fittings, nuts and bolts*
- *Durable chrome-vanadium steel construction*
- *Chrome plated finish for superior corrosion resistance*
- *Max jaw width: 50mm*

Code	Description	Price £
R45561	Locking Pliers - 10"	**9.99**

TIN SNIPS

Features

- *Cuts metal sheets up to 1.2mm thick and stainless steel up to 0.7mm thick*
- *Durable chrome-vanadium steel construction*
- *Spring loaded for faster, easier cutting*
- *Hardened and serrated cutting edge for a clean, controlled cut*
- *Soft grip handles for improved comfort, grip and control*

Code	Description	Price £
R45562	Tin snips - straight cut - 10"	**7.99**

BOLT CUTTERS

Features

- *Cr-Mo steel blades with hardened jaws for incredible cutting power, perfect for cutting wire, chains, bolts and threaded bar*
- *Tubular steel shafts for improved leverage and power transfer*
- *Suitable for cutting up to 10mm steel*
- *Dual compound soft grip handles for improved comfort, grip and control*

Code	Description	Price £
R45563	Bolt cutters - 24"	**24.99**

UNLEASHED.
QUALITY TOOLS DESIGNED FOR THE TOUGHEST JOBS.

Even the most experienced professional doesn't know what the working day will bring.

Which is why we design and build all our products to perform in the most demanding environments, to the highest standards. Day in, day out, professionals rely on our kit to get the job done, quickly, efficiently and safely. They don't worry about what the job will bring, ***they just want it to 'bring it on!'***

RAPTOR®

SCREWDRIVERS AND SETS

SCREWDRIVERS AND SETS

When we started developing our range of screwdrivers we did so with a spring in our step and a faint hint of arrogance. After all, we use them day in day out, we've used bad screwdrivers and we've used some exceptional ones over the years so we know what everyone wants, we may even have said 'How hard can it be?'. The answer: Very.

At Raptor we understand screwdrivers are ultimately a personal choice, something evident during the development of our Raptor range that resulted in a more heated discussion than the great 'Jam or Cream first on a Scone' dispute of 2016.

However, where there is a will there is a way and after months of deliberation, development and tweaks (not to mention copious amounts of tea) we feel we have a range that's earnt its place on the job site.

Don't believe us? Well take a look at the torque boosting Trilobular grip for example; a grip that fits comfortably and securely in both dainty or shovel sized palms. Or the S2 Blades with Magnetic Tips, even the Hex Bolsters that we put on specific sizes. All developed to give provide a range of true trade quality Screwdrivers that's perfect for every Installer and Engineer.

SCREWDRIVERS

Features

- *Ultra high spec S2 steel blade with corrosion resistant coating*
- *Ergonomic trilobular handle design provides exceptional comfort and torque transfer*
- *Dual compound soft grip handles for improved comfort, grip and control*
- *Magnetic tips helps reduce dropping of screws*
- *Hex bolsters allows the screwdriver to be used in conjunction with a spanner for increased torque and leverage (certain sizes only)*
- *Easy ID grips help identify screwdriver head standard*

Code	Description	Price £
R45564	PH2 x 40mm	**2.99**
R45565	PH1 x 100mm	**3.99**
R45566	PH2 x 125mm*	**4.49**
R45567	PH2 x 200mm*	**5.49**
R45568	PH3 x 150mm*	**4.99**

VDE SCREWDRIVER SET

Features

- *VDE certified screwdriver set, insulated up to 1000V*
- *GS safety marked*
- *Durable chrome-vanadium steel blades*
- *Long, fine insulated neck for excellent fingertip control whilst still providing access to recessed screw heads such as those found in electrical connections*
- *Anti-Slip magnetic tips helps reduce dropping of screws whilst also reducing cam outs and stripping of screw heads*
- *Contents SL3.5 x 100mm, SL4 x 100mm, SL5.5 x 125mm, PH1 x 100mm and PH2 x 100mm*

Code	Description	Price £
R25666	VDE screwdrivers - 5-piece set	**14.99**

RIP UP THE RULE BOOK

When the going gets rough, release the Raptor.

Nothing beats a Raptor hand tool. They're made to be uncompromising, to tear through the toughest jobs and to be the only one standing when the dust settles. A perfect marriage of form, function and ferocity, Raptor tools aren't waiting to be used, ***they're waiting to be unleashed.***

RAPTOR®

MISCELLANEOUS HAND TOOLS

MISCELLANEOUS HAND TOOLS

One definition of Miscellaneous is; 'a collection, or group composed of members or elements of different kinds'. That's exactly what this is, a collection of Handtools that don't quite fit in any other category.

However, don't let that fool you into the assumption that this is the dumping ground of unloved, undeveloped Handtools.

Absolutely not.

At Raptor we make sure that whatever the tool its fit for purpose and is there to make your life on site easier. Not harder. Something that rings true even for occasional use tools.

RIVET GUNS

Features

- *Durable aluminium and steel construction*
- *Powder coated finish for/or improved corrosion resistance*
- *Internal storage for nose pieces and spanners*
- *Suitable for 2.4, 3.2, 4, 4.8mm rivets*

Code	Description	Price £
R45583	Rivet gun	**9.49**

JAW DROPPING POWER

Get things under control, quicker than you can say 'lockdown' with the Raptor quick clamp.

Pipes might start shaking when they see it, but with its incorporated pipe grooves, they're not budging once its gripping pads bite down on them with upto 120kg of pressure. ***Ouch.***

RAPTOR®

TOOL STORAGE

TOOL STORAGE

Bought a load of shiny, new Raptor tools and want to keep them safe?

Maybe you don't want to spend an hour carrying a bundle of tools in your arms on site each morning? Perhaps you're training for the weekend shopping bag run. Whatever it is, you're going to need some serious tool storage to look like the professional that you are when you turn up on site.

Don't worry, at Raptor we have you covered!

BAG AND TOTE SET

Features

- *Produced from heavy duty 600 denier fabric with reinforced waterproof hard base to offer exceptional durability*
- *Adjustable and removable padded shoulder straps for easier transportation*
- *Tool bag incorporates a comfortable rubber handle with 21 storage pockets, perfect for organising smaller tools*
- *Tote Bag incorporates a strong steel handle bar with foam grip and 26 pockets, perfect for organising smaller tools*

Code	Description	Price £
R25673	Bag and Tote - 2-piece set	**39.99**

BEWARE!
OUR SAW BLADES ARE HERE.

We don't make 'normal' saw blades at Raptor.

We make tungsten carbide-tipped, perfectly tensioned, razor-sharp, 'like a hot knife through butter, day-in-day-out' saw blades.
Why cut it, when you can Raptor it.

RAPTOR®

LIGHTING

Vision One 95
Vision Three 95
Vision Five 96
Vision Seven 96

LIGHTING

We've all been there, and I guarantee its far more often than any of us like.

Be that a basement plantroom, in a stuffy loft or a site with no power. Wherever it may be we certainly know that you wished for the exact same thing as we did countless times; that you could turn night into day. Well, at Raptor we set about trying to make that a reality.

Our new Vision range of head and hand torches have been developed to make your old hand torch seem as effective as fireflies in a jam jar. Compact, lightweight, efficient and blindingly bright, the entire range is crammed with features to make your life on-site much easier.

VISION ONE

Features

- *Spot light (250 lumens) - 122 meters / 3.5 Hrs*
- *C·O·B work light (80 lumens) - 13 meters / 7 Hrs*
- *C·O·B red light (10 lumens) - 4 meters / 8 Hrs*
- *Red beacon light visible more than 1 mile away / 48 Hrs*
- *90° tilting headlamp*
- *Dual adjustable head straps*
- *Power/dimmer button*
- *Water & impact-resistant durable housing*

Code	Description	Price £
R00169	Vision One head torch	**15.99**

VISION THREE

Features

- *C·O·B LED work light high (250 lumens) - 29 meters / 3 Hrs*
- *C·O·B LED work light low (95 lumens) - 17 meters / 10 Hrs*
- *C·O·B LED emergency red hazard flasher - 10 Hrs*
- *Single button operation with 3 powerful light modes*
- *Anodized aircraft-grade aluminium body design*
- *Steel belt/pocket clip*
- *Magnetic base;Water & impact-resistant*

DRILL BITS WITH MORE BITE!

Even the toughest surfaces tremble at the sound of our drill bits.

Maybe it's their razor-sharp cutting edges, or it could be their ruthlessly-efficient optimised flutes, either way they're the professionals' dream bit, ***and every surface's worst nightmare.***

RAPTOR®

TURBOJET HSS DRILL BITS

TURBOJET HSS DRILL BITS

The Raptor TurboJet HSS Drill is the product of years of development and feedback from professional tradesman from all industries.

Incorporating a unique TurboJet head that features 7 cutting edges and an easy start tip that eliminates walking on even the hardest of metals it's no wonder why so many professionals love this drill bit.

But the technology doesn't stop there. The fully ground, optimised flutes ensure excellent waste material removal whilst the Titanium Nitrate (TiN) coating provides superior lubrication for an easier, more precise drill hole every time.

TURBOJET

Features

- *Suitable for drilling into all metals*
- *Unique TurboJet 7 edge tip provides superior cutting performance and allows for easy starting in even the hardest of metals*
- *Optimised flute for exceptional waste removal*
- *Titanium Nitrate (TiN) coating offers superior lubrication for ease of drilling and improved drill bit life*
- *Plain shank ensures compatibility with most brands of drill drivers*

AUGER DRILL BITS

The ultra high quality carbon steel Raptor Auger Bits make drilling through wood effortless.

Featuring a machine pitched screw point to ensure an easy and pinpoint accurate start on every drill hole, whilst the wide, optimised flute not only improves stability but also offers rapid waste removal so you never have to worry about clogging and completed with a hexagonal shank for a secure chuck lock.

Perfect for drilling into wood, laminates, plasterboard and MDF the Raptor Auger Bit will provide a truly professional finish time after time.

WOOD

Features

- *Suitable for drilling into wood, laminates, plaster board and MDF*
- *Machined pitched screw allows for an easy drill start and exceptional accuracy*
- *Optimised flute for exceptional waste removal*
- *Hexagonal Shank ensures a positive, secure chuck lock allowing for greater torque loads without slipping*

UNLEASHED.
QUALITY TOOLS DESIGNED FOR THE TOUGHEST JOBS.

Even the most experienced professional doesn't know what the working day will bring.

Which is why we design and build all our products to perform in the most demanding environments, to the highest standards. Day in, day out, professionals rely on our kit to get the job done, quickly, efficiently and safely. They don't worry about what the job will bring, ***they just want it to 'bring it on!'***

RAPTOR®

FLAT WOOD BITS

FLAT WOOD BITS

The Raptor Flat Wood Bit is an essential accessory for every tradesman.

Boasting a precision ground central point it also provides an innovative, optimized blade design to provide up to 2.5x faster drilling whilst producing a crisp, professional finish. Couple this with the 1/4" Quick Change shank and you have a Flat Wood Bit that you can rely on.

FLAT

Features

- *Suitable for drilling into wood, light building materials, laminates and plaster board*
- *Innovative wider chip groove head design for 25x faster drilling*
- *1/4" Quick change shank for rapid tool change*

MULTI-MATERIAL DRILL BITS

The Raptor multi-material drill bit is a staple element of any tradesman's tool box.

This innovative drill bit from Raptor is suitable to use on metal, wood, masonry, plastics and a vast array of multi-layered materials. The precision ground construction ensures faster, cleaner hole drilling even in hard materials whilst the advanced Carbide tip gives this exceptional drill bit prolonged life in both rotary and impact modes.

The Raptor Multi-Material drill bit is the perfect drill bit for professional tradesmen.

MULTI-MATERIAL

Features

- *Suitable for drilling into an array of materials commonly encountered on the job, including wood, metal, masonry and plastic*
- *135° drill tip ensures an easy start in any material and helps provide excellent drilling performance*
- *Sculpted flute for exceptional dust removal*
- *Plain shank ensures compatibility with most brands of drill drivers*

Code	Description	Price £

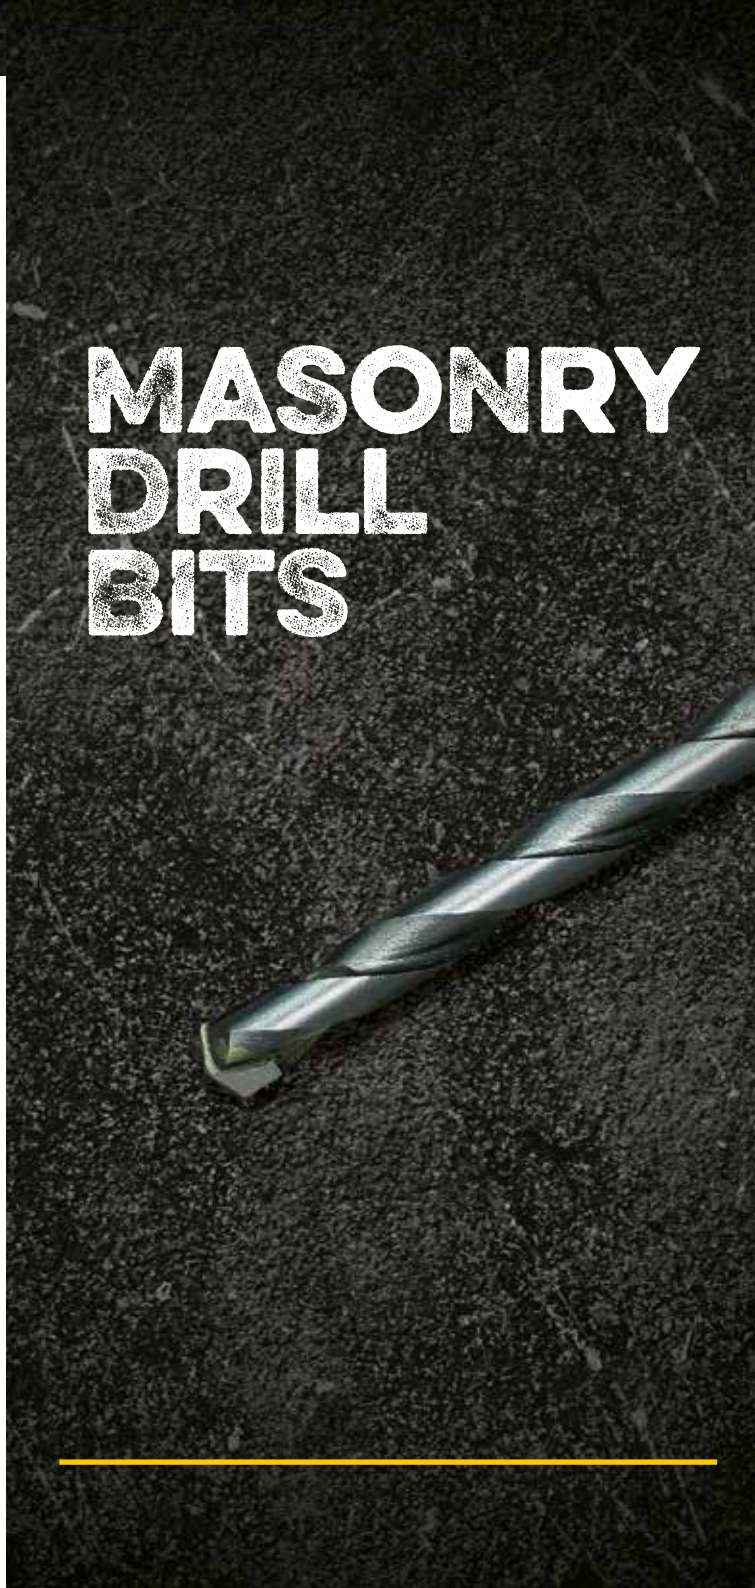
Features

- *Includes the following sizes: 40 x 75mm, 50 x 85mm, 60 x 100mm , 80 x 120mm*
- *Suitable for drilling into an array of materials commonly encountered on the job, including wood, metal, masonry and plastic*
- *135° drill tip ensures an easy start in any material and helps provide excellent drilling performance*
- *Sculpted flute for exceptional dust removal*
- *Plain shank ensures compatibility with most brands of drill drivers*

Code	Description	Price £
R25691	4 piece set	**8.99**



MASONRY DRILL BITS

The Raptor Masonry Drill bit is a true trade quality product.

The advanced Tungsten Carbide tip is both heat treated and vacuum brazed to offer superior drilling performance whilst lasting up to 3x longer than many drill bits available today.

This exceptional cutting performance is then teamed with a sculpted, ground flute to ensure exceptional waste material removal whilst preventing any loss of torque or deformation to the drill.

MASONRY AND CONCRETE

Features

- *Suitable for drilling into most masonry materials*
- *Advanced Tungsten Carbide tip construction offers longer life and exceptional drilling performance*
- *Optimised flute for exceptional waste removal*
- *135° drill tip ensures an easy start in any material and helps provide excellent drilling performance*
- *Plain shank ensures compatibility with most brands of drill drivers*

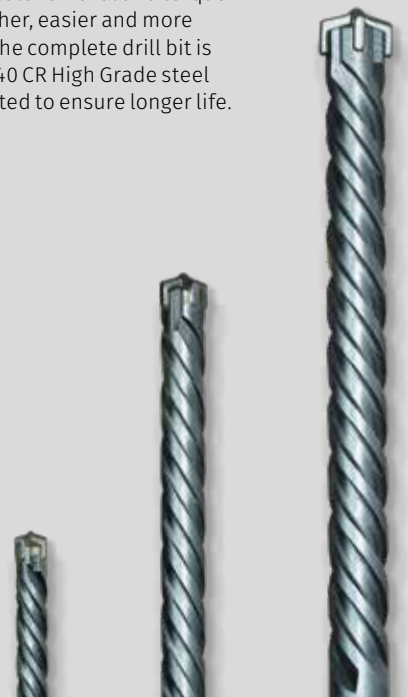
SDS PLUS DRILL BITS

SDS PLUS DRILL BITS

For when only trade quality will do. Using innovative features, the Raptor SDS Plus cross tip drill bits range outperforms its rivals to ensure high levels of productivity.

Starting at the tip, this exceptional drill bit features a Ceratizit Cross Point Tip – which features additional cutting surfaces provide superior material purchase and cutting ability whilst offering up to 5x longer life - even in denser building materials.

The flute is in our eyes a work of art, it has been digitally optimised and sand blasted to offer optimal waste removal and torque transfer for smoother, easier and more accurate drilling. The complete drill bit is constructed from 40 CR High Grade steel and then heat treated to ensure longer life.



CROSS TIP SDS PLUS

Features

- *Suitable for drilling into most masonry materials*
- *Ceratizit Cross Point Tip offers superior material purchase and cutting ability even in denser building materials!*
- *Heat Treated 40 CR High Grade Steel Construction provides increased durability and up to 5 times longer life span*
- *Digitally optimised flute ensures optimal waste removal resulting in cleaner, more accurate drill holes*
- *SDS Plus drill fitment for exceptional security and torque transfer*

BEWARE!

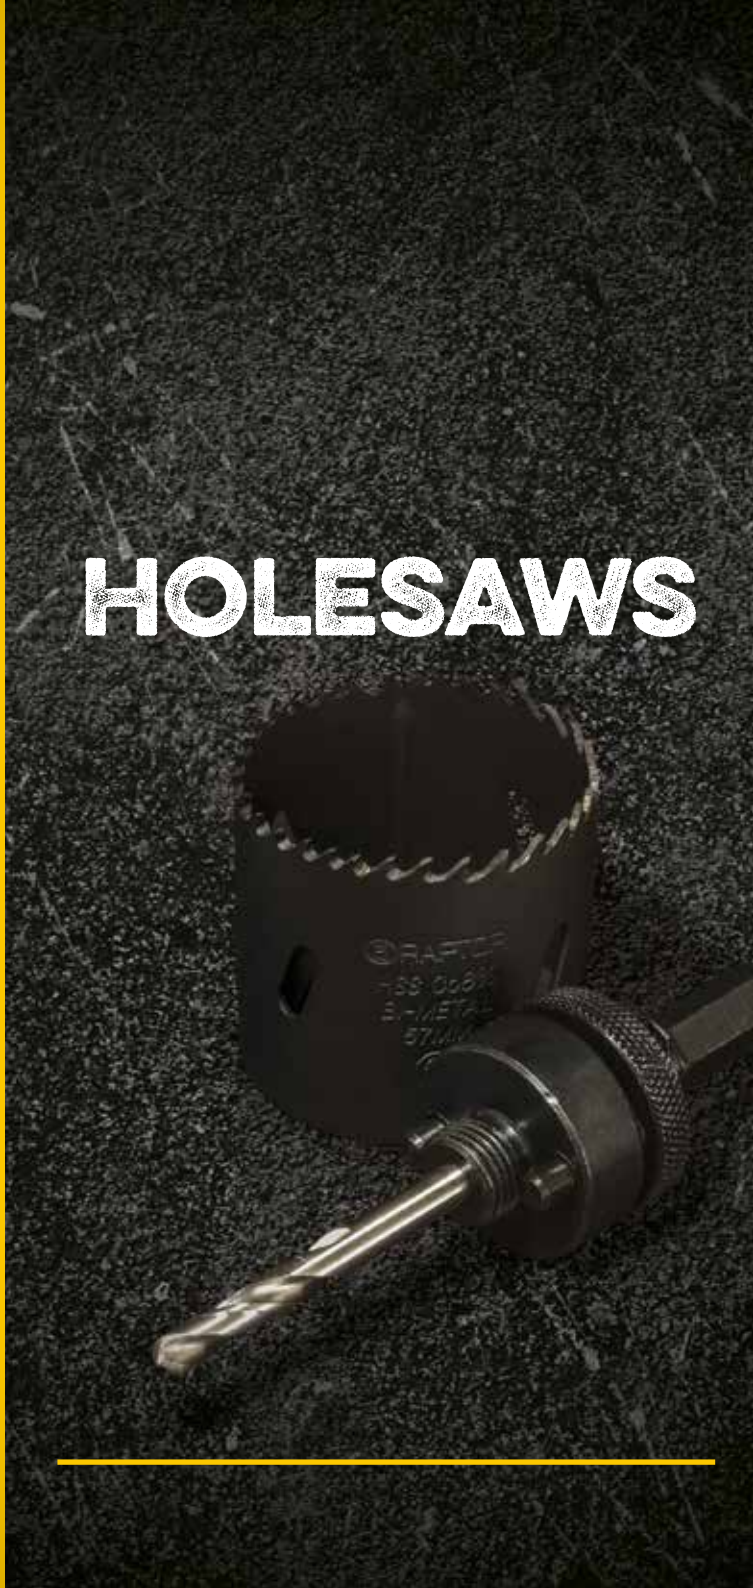
OUR SAW BLADES ARE HERE.

We don't make 'normal' saw blades at Raptor.

We make tungsten carbide-tipped, perfectly tensioned, razor-sharp, 'like a hot knife through butter, day-in-day-out' saw blades.
Why cut it, when you can Raptor it.

RAPTOR®

HOLESAWS



HOLESAWS

The Raptor Bi-Metal Holesaw has been developed specifically to give a professional smooth cut every time.

The Bi-Metal construction ensures superior cutting performance and longer life, whilst the optimised, progressive tooth strip guarantee's a first class finish - perfect for even the most discerning of trade professionals.

BI-METAL

Features

- *Suitable for drilling into wood, metal, laminates, plaster board, PVC and MDF*
- *M42 high speed steel construction with 8% Cobalt for exceptional cutting performance and extreme durability*
- *Progressive tooth strip with varying tooth pitches provides a superior finish*
- *Angled side slots for easy waste material removal*
- *For use with Raptor Arbor & Pilot Drill for 14-29mm Holesaws (R25783)*

DIAMOND TECH™ HOLESAWS

Quite literally the jewel in the Raptor crown; our tough alloy bodied DiamondTech™ Holesaw range features the latest, innovative technology designed specifically to cut through the materials you encounter on a daily basis.

These holesaws have an exposed Diamond grit edge that has been specifically developed for trades professionals who need to drill into extremely hard materials such as Marble, Porcelain, Glass Granite, Cast Iron and many more on a daily basis where a conventional holesaw simply won't cut it.

Our DiamondTech™ Holesaws do not need a continuous flow of water – perfect for on the job site where this can be difficult to obtain. Instead simply dip them into water at the start of each hole and thereafter every 5 seconds during the cut duration. You can even use the larger sizes with an angle grinder by using the M14 grinder adaptor.

What is DiamondTech™?

Every now and again you stumble across something that doesn't just up the game, but rips up the rule book, throws it on the floor and changes the game entirely leaving the rest fighting to keep up. For us at Raptor, that technology is DiamondTech™.

The DiamondTech™ Wet & Dry technology improves Power Tool performance on every level, delivering the highest performance on even the most difficult of materials, cutting where no other blade or bit will, both quicker and longer than ever before.

Featuring premium grade exposed diamonds that are vacuum brazed bonded to give optimal performance, this exceptional technology allows for easy start plunge cutting without the need of a guide – perfect for even the tightest locations.

Suitable for use on a vast array of materials including; Porcelain, Ceramic, Glass, Granite, Marble, Travertine, Slate, Fibre Cement Board, House Brick, Fibreglass to name just a few.

- Up to 10x longer life
- Premium Grade Diamonds
- High grade exposed diamond for fast cutting
- Superior brazed bond matrix
- Tough alloy body
- Easy start plunge cutting for working in the tightest of locations without the need for guiding
- Low torque prolonging battery life of cordless power units

DIAMONDTECH™ WETDRY HOLESAWS

Features

- *Suitable for cutting grade 5 porcelain, ceramic, granite, marble, travertine, slate, glass, drywall, cement board, wood, laminates and bricks, Glass (up to 19mm) plus many more!*
- *High grade exposed diamonds for fast, clean cutting*
- *Advanced Brazed Bonding provides up to 10 times longer operating life than conventional cutting bits*
- *Water Starved Operation - Doesn't require a continuous flow of water, simply dip the bit in water before beginning the cut and then every 5 seconds during*
- *Perfect for job sites where its difficult to locate running water*
- *Tough Alloy Body for improved durability*

- *Advanced Brazed Bonding provides up to 10 times longer operating life than conventional cutting bits*
- *Water Starved Operation - doesn't require a continuous flow of water, simply dip the bit in water before beginning the cut and then every 5 seconds during Perfect for job sites where its difficult to locate running water*
- *Tough Alloy Body for improved durability*

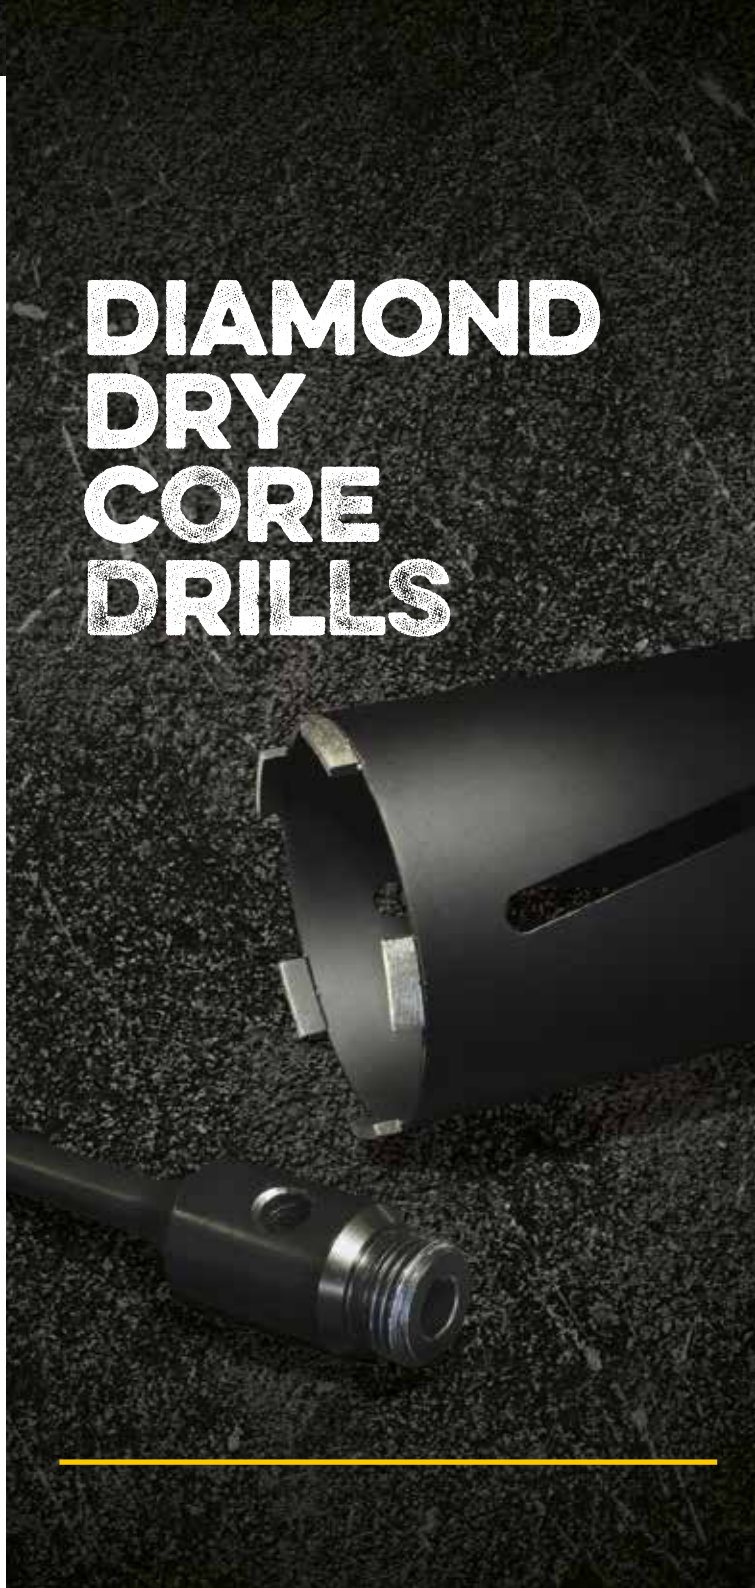
Code	Description	Price £
R25677	6 piece set	**71.99**

DIAMONDTECH™ ARBOR WITH AUTOPILOT

Features

- *For Raptor DiamondTech holesaws 22 - 29mm in diameter*
- *Tungsten Carbide Retractable Starter Bit for accurate centring without the need of a pilot hole*

Code	Description	Price £
R25800	Small 22mm - 29mm + AutoPilot	**14.99**
R25801	Large 35mm - 68mm + AutoPilot	**14.99**



DIAMOND DRY CORE DRILLS

Our professional grade, fast cutting Dry Diamond Core Drill & Accessory Kit is a firm favourite with Professional Plumbing, Electrical and Heating Engineers and its not hard to see why.

The 5 Diamond Cores are sized for the most common applications you're likely to face on the jobsite and each core has been engineered from the ground up to provide optimum performance.

Each segment is 8.0mm tall and features a high concentration of diamonds for rapid cutting. These segments are then laser welded to the core body for ultimate strength; meaning no segment loss and a much longer working life.

The slotted barrel has also been designed to not only ensure that debris is cleared during the drilling phase but also to make removing blanks much easier.

Finally our Raptor cores are all 150mm in length, longer than most on the market which makes them much more stable and therefore suited to drilling into cavity walls.

DIAMOND CORE DRILLS

Features

- *Suitable for drilling into lightweight building products such as Hard York Stone, General House Brick, London Brick, Facing Brick, Lightly Reinforced Concrete, Breeze Block, etc*
- *Laser Welded 8mm tall segments with a high diamond concentration guarantee rapid drilling performance*
- *150mm Length Cores allow for a stable drill phase, for an accurate, high quality hole*
- *For use with 850 Watt and above Rotary Drill with a Slipping Clutch (not suitable for Impact/Percussion use)*

Code	Description	Price £
R25861	28 x 300mm	**18.99**
R25862	38 x 150mm	**19.99**
R25863	48 x 150mm	**22.99**
R25864	52 x 150mm	**24.99**
R25865	65 x 150mm	**27.49**
R25866	107 x 150mm	**30.99**
R25867	117 x 150mm	**32.99**
R25868	127 x 150mm	**37.99**

DIAMOND CORE DRILL ADAPTOR KITS

Features

- *This ultra-useful kit contains a complete set of adaptors and accessories that enable you to use Raptor Diamond Core Drills with either a Hexagonal or SDS Plus chuck*
- *Manufactured from high quality steel to 34HRC standards for superior performance and improved durability*
- *Includes the following: Shank to 1/2" BSP Male Adaptor, Guide Rod, and Drift key*

Code	Description	Price £
R25869	1/2" male to hex shank	**9.99**
R25870	1/2" male to SDS plus	**9.99**

EXTENSION BAR

Features

- *An essential accessory for anyone that uses Raptor Dry Diamond Cores, this universal extension bar allows you to add an extra 200mm of drilling depth, perfect for when cutting through thicker walls*
- *200mm Universal Extension Bar can be use with both Hex and SDS Plus adaptors*
- *1/2" BSP Fitment*
- *Manufactured from high quality steel to 34HRC standards for superior performance and improved durability*

Code	Description	Price £
R25871	Universal extension bar - 200mm	**9.99**

EJECTOR DRIFT

Features

- *An incredibly simple but effective little tool, the Raptor Drift Key is an essential accessory for anyone that uses Raptor Dry Diamond Cores. It can be used with either our Hex or SDS Plus adaptors to aid the release of the 'A' Guide Rod or taper drill bit from the adaptor after use*
- *Manufactured from high quality steel to 34HRC standards for superior performance and improved durability*

Code	Description	Price £
R25872	Ejector drift	**1.99**

DIAMOND DRY CORE DRILLS

A TAPER GUIDE

Features

- *A crucial component in the Raptor Diamond Core accessory range*
- *The Raptor 'A' Taper Guide Rod is compatible with either our Raptor Hex or SDS Plus Adaptors. The Guide Rod can then be inserted into a predrilled pilot hole to provide initial core drill hole guidance, preventing walking on the material and ensuring an accurate hole perfect for when only a professional finish will do!*
- *210mm in Length for improved pilot hole purchase*
- *Manufactured from high quality steel to 34HRC standards for superior performance and improved durability*

Code	Description	Price £
R25873	'A' Taper guide rod - 210mm	**4.99**

ARBORS

Features

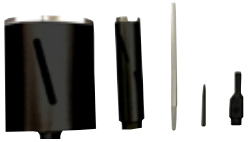
- *These handy little adaptors/arbors enable you to use Raptor Diamond Core Drills in a drill with either a standard Hex or SDS Plus Chuck - providing ultimate versatility*
- *Manufactured from high quality steel to 34HRC standards for superior performance and improved durability*
- *Includes the following: Shank to 1/2" BSP Male Adaptor*

Code	Description	Price £
R25874	Hex to 1/2" male adaptor/arbor	**7.99**
R25875	SDS plus to 1/2" male adaptor/arbor	**7.99**

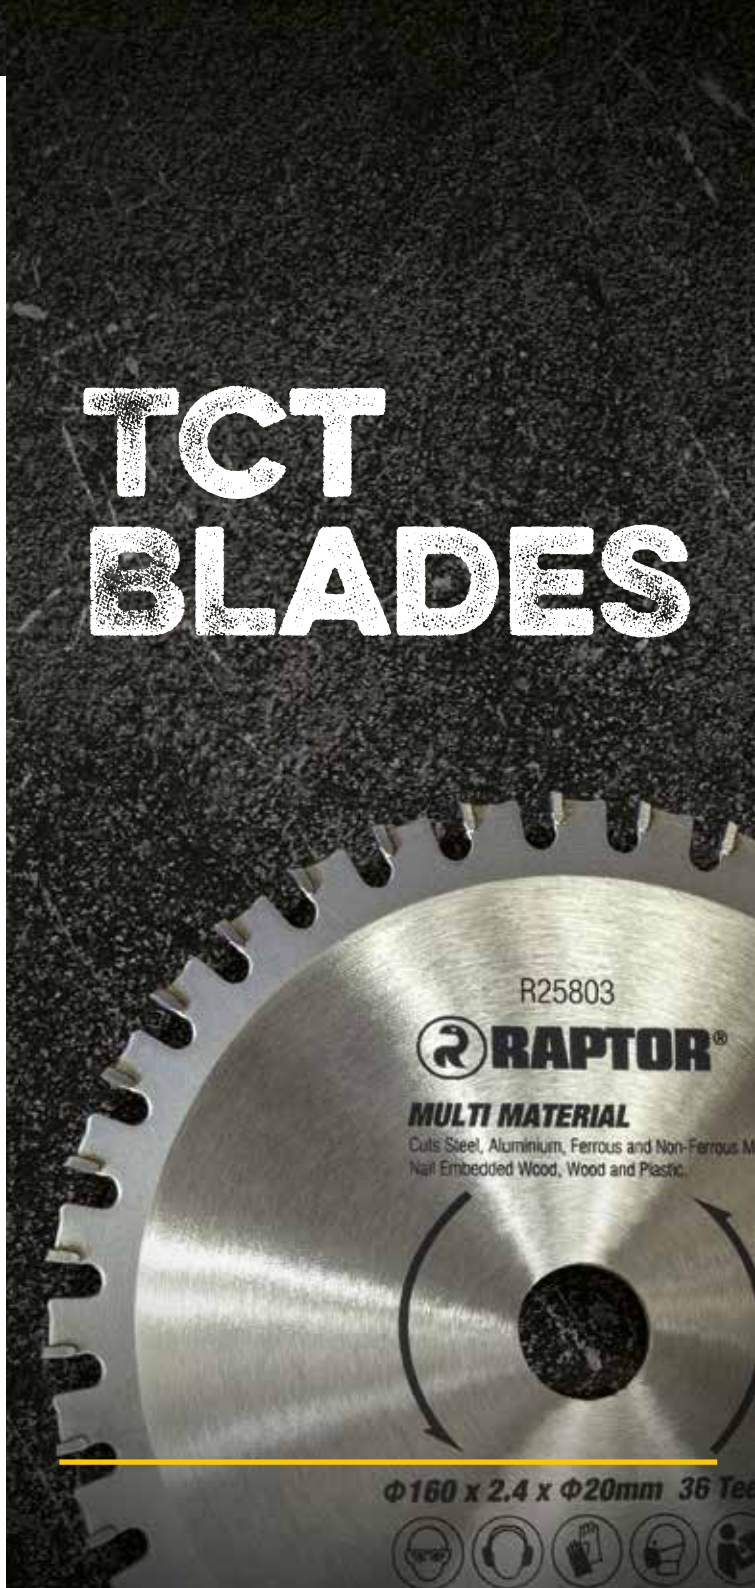
DRILL KIT PLUS ACCESSORIES

Features

- *Includes the following: Diamond Core Drills: 42 x 150mm, 52 x 150mm, 65 x 150mm, 117 x 150mm, 127 x 150mm*
- *Accessories: Chuck Adaptor, SDS Adaptor, Universal Extension, Guide Rod, Drift Key, 13 x 350mm Pilot Drill*
- *Suitable for drilling into lightweight building products such as Hard York Stone, General House Brick, London Brick, Facing Brick, Lightly Reinforced Concrete, Breeze Block, etc*
- *Laser Welded 8mm tall segments with a high diamond concentration guarantee rapid drilling performance*
- *150mm Length Cores allow for a stable drill phase, for an accurate, high quality hole*
- *For use with 850 Watt and above Rotary Drill with a Slipping Clutch (Not suitable for Impact/Percussion use)*



Code	Description	Price £
R25802	5 Piece Core Set Plus Accessories	**179.99**



TCT BLADES

Extreme performance, the Raptor tungsten carbide-tipped blades that are thinner, perfectly tensioned, sharper and more accurate meaning they last up to twice as long as conventional blades.

The unique tooth design and material construction provides superior, clean cuts every single time and you no longer need to worry about what you could potentially be cutting through; wood, metal, plastic, even wood with nails; this exceptional blade will simply take them all on with ease; making your life on site a little bit easier.

MULTIPURPOSE

Features

- *Multipurpose blade is suitable for the cutting of wood, wood with nails, metal and plastics*
- *Unique blade tooth design and construction provides superior clean cuts*
- *Universal fit ensures this will fit a vast array of Circular and Mitre Saws*

Code	Description	Price £
R25803	160mm x 2.4mm x 20/16 – 36 teeth	**11.99**
R25804	184mm x 2.4mm x 20 – 40 teeth	**16.99**

THE CLAWS ARE OUT

When it's as tough as nails, you can rely on Raptor.

Whether it needs a delicate tap, or warrants an enthusiastic pound, 'it' will tap out and submit to your will, when you pull out a Raptor hammer. Perfectly formed, balanced and independently tested to DIN standards, so you can count on them. ***Every. Single. Time.***

RAPTOR®

DIAMOND CUTTING BLADES

DIAMOND CUTTING BLADES

At Raptor we spend time on site speaking to the tradesmen that use our tools everyday. It's for that reason that we created a range of three distinct Diamond Blades that cover 99% of all trade jobs:

- Continuous Rim – Ultra-thin, self-sharpening and perfect for chip-free cutting of tiles including porcelain, ceramic and marble
- Segmented – When out and out speed and performance is everything, this is the blade of choice with self-cooling segments, high diamond content and reduced vibration and noise
- Turbo – Combining precision, premium quality and speed in a single, diamond-clad metal disc this blade outlasts its nearest rivals with prolonged life

CONTINUOUS RIM

Features

- *Suitable for cutting porcelain, ceramic, marble, terracotta, granite, slate and steel coated tiles*
- *Professional quality blade with an ultra fine Diamond Grit ensures precise, chip free, cleans cuts*
- *Conforms to European Safety Regulations*

Code	Description	Price £
R25805	80mm	**6.99**
R25806	105mm	**7.49**
R25807	110mm	**7.99**
R25808	115mm	**8.49**
R25809	125mm	**8.99**
R25810	150mm	**12.99**
R25811	180mm	**14.99**

SEGMENTED

Features

- *Suitable for general purpose cutting such as building materials, bricks, block paving, tiles and lintels*
- *Segment gullets improve airflow to the blade, reducing heat build up whilst also helping to clear debris resulting in an improved cut and longer working life span*
- *Conforms to European Safety Regulations*

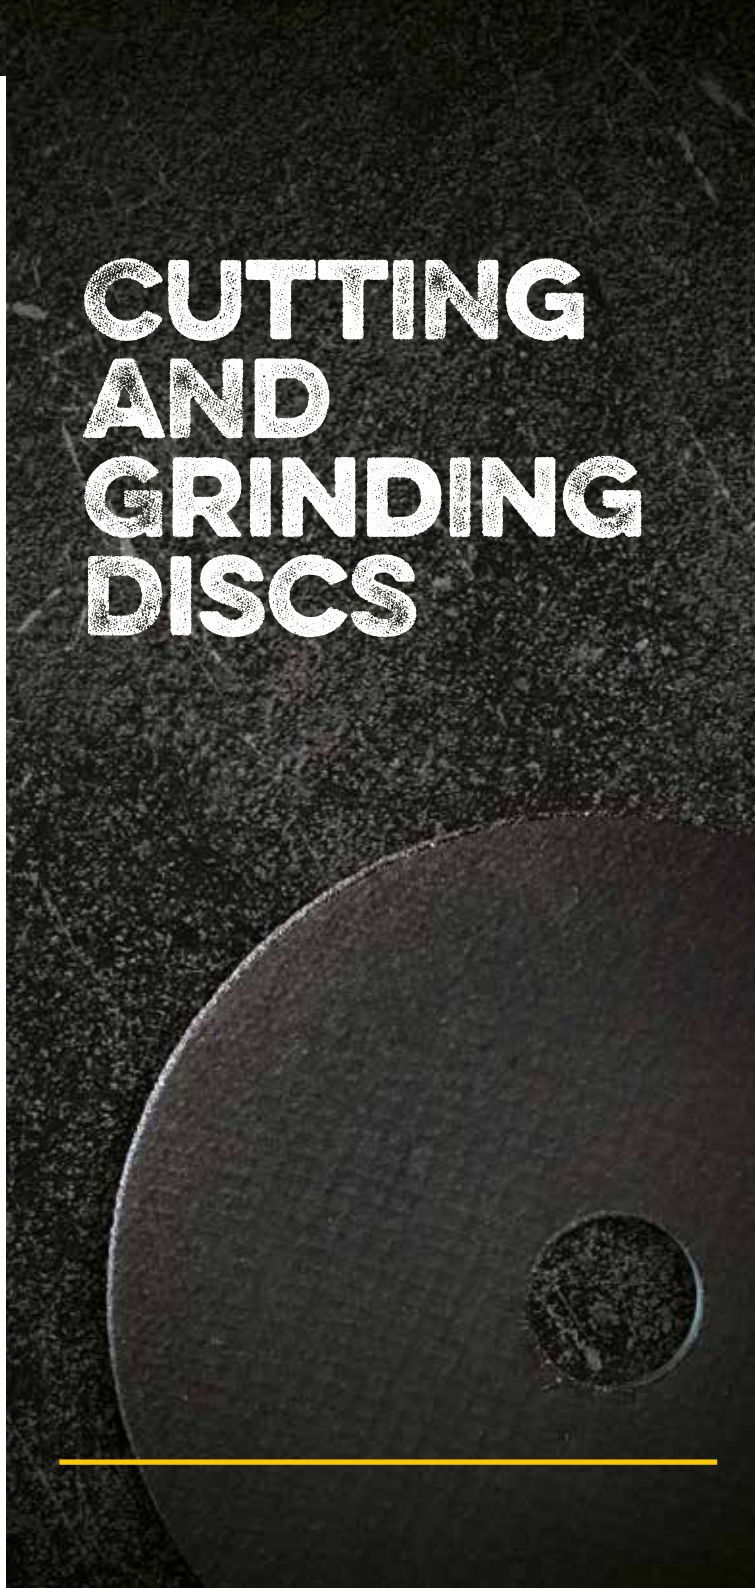
Code	Description	Price £
R25812	115mm	**8.49**
R25813	125mm	**8.99**
R25814	230mm	**15.99**
R25815	300mm	**34.99**
R25816	350mm	**54.99**

TURBO

Features

- *Suitable for cutting building materials, hard concrete products, block paving, bricks, tiles, natural stone, iron, steel + many more*
- *Self-Cooling segments reduce heat build up dramatically extending blade life*
- *Segment design reduces vibration and noise*
- *Conforms to European Safety Regulations*

Code	Description	Price £
R25817	115mm	**8.49**
R25818	125mm	**8.99**
R25819	230mm	**19.99**
R25820	300mm	**39.99**
R25821	350mm	**59.99**



CUTTING AND GRINDING DISCS

Abrasive cutting discs have been a staple element of any trademans toolbag for years.

Our Raptor cutting discs are engineered to give a cleaner, quieter, faster cut whilst also offering a longer working life; making them the perfect disc of choice for tradesmen everywhere.

METAL

Features

- *Suitable for fast and smooth cutting of most metals*
- *22.23mm Disc Bore (M14) means that it is compatible with most Angle Grinders*
- *Conforms to European Safety Regulations*

Code	Description	Price £
R25822	115mm x 2.5mm x 22mm (pack of 5)	**3.99**
R25823	125mm x 2.5mm x 22mm (pack of 5)	**4.99**
R25824	230mm x 3.0mm x 22mm (pack of 5)	**14.99**

STAINLESS STEEL

Features

- *Suitable for fast and smooth cutting of all types of Steel*
- *Reinforced fibreglass construction and premium resin bond provides a longer life span*
- *22.23mm Disc Bore (M14) means that it is compatible with most Angle Grinders*
- *Conforms to European Safety Regulations*

Code	Description	Price £
R25825	115mm x 1.0mm x 22mm (pack of 5)	**3.99**
R25826	125mm x 1.2mm x 22mm (pack of 5)	**4.99**
R25827	230mm x 2.0mm x 22mm (pack of 5)	**14.99**

STONE

Features

- *Suitable for fast and smooth cutting through Stone and Concrete materials*
- *Constructed from professional grade Silicon Carbide, reinforced fibreglass and premium resin bond to provide a longer life span*
- *22.23mm Disc Bore (M14) means that it is compatible with most Angle Grinders*
- *Conforms to European Safety Regulations*

Code	Description	Price £
R25828	115mm x 2.5mm x 22mm (pack of 5)	**3.99**
R25829	125mm x 2.5mm x 22mm (pack of 5)	**4.99**
R25830	230mm x 3.0mm x 22mm (pack of 5)	**14.99**

RECIPROCATING SAW BLADES

RECIPROCATING SAW BLADES

Chosen and designed by the trade for the trade.

Three blades cover 99% of the professional tradesman's needs. Utilising a Bi-Metal material and featuring milled teeth, these blades are perfect for cutting Aluminium, Stainless Steel, Mild Steel, Metal Pipe, Plastic, Wood and even mixed materials such as wood with embedded nails meaning you can tackle any job confidently.

Also, as they feature a Universal Fitting Shank they fit nearly every reciprocating saw on the market. A perfect addition to your van stocks.

METAL

Features

- *Bi-Metal construction with milled teeth produces a faster, cleaner cut in metal, plastic and wood*
- *Suitable for cutting metal up to 8mm thick*
- *14 TPI blade produces a fine but fast cut*
- *Universal fitting shank ensures compatibility with most brands of reciprocating saws*

Code	Description	Price £
R25834	150mm x 14 TPI (pack of 2)	**8.99**
R25835	150mm x 24 TPI (pack of 2)	**8.99**
R25836	225mm x 10 TPI (pack of 2)	**9.99**

DRILL BITS WITH MORE BITE!

Even the toughest surfaces tremble at the sound of our drill bits.

Maybe it's their razor-sharp cutting edges, or it could be their ruthlessly-efficient optimised flutes, either way they're the professionals' dream bit, ***and every surface's worst nightmare.***

RAPTOR®

MULTITOOL BLADES

MULTITOOL BLADES

Multi-tools. Where would we be without them?! Probably still scratching our heads and reaching for the hammer if we are honest...

That's why when we created the Raptor Power Tool Accessories range, Multi-tool blades were right at the top of our list. However, at Raptor we like to do things properly, that's why our blades have been developed from the ground up with performance, durability and compatibility at the forefront of our minds.

Our Raptor Multi-Tool blades are available in either end/plunge or semi-circle cut variants and are versatile enough to tackle a variety of materials you're likely to encounter on the job including; Wood, Plastic, Plaster, Laminates and some metals. They're also cleverly designed; featuring an open back 'Quick-Change' system that allows you to change the blade without having to fully remove (and drop) the retaining bolt. The fitting system is also incredibly universal, making it compatible with a huge array on Multi-Tool systems available today.

In short? We are really proud of our Multi-Tool blades and think that they deserve to be the Multi-Tool Blade of choice for any trade professional.

END CUT

Features

- *Suitable for cutting Wood, Laminate, Plaster Board and Plastics*
- *18 TPI End/Plunge Cut Blade - 28mm Cutting Length*
- *Universal Fitting System ensures compatibility with most brands of Multi-Tools. Adaptors included for Bosch and Dremel Quick Change Multi-Tools*
- *Quick-Change Fitting System allows for rapid blade changes*
- *Pack of 5*

Code	Description	Price £
R25876	End cut (pack of 5)	**14.99**

SEMI CIRCLE CUT

Features

- *Suitable for cutting Wood, Laminate, Plaster Board and Plastics*
- *18 TPI Semi Circle Cut Blade - 87mm Diameter*
- *Universal Fitting System ensures compatibility with most brands of Multi-Tools. Adaptors included for Bosch and Dremel Quick Change Multi-Tools*
- *Quick-Change Fitting System allows for rapid blade changes*
- *Pack of 5*

Code	Description	Price £
R25877	Semi circle cut (pack of 5)	**14.99**

BEWARE!

OUR SAW BLADES ARE HERE.

We don't make 'normal' saw blades at Raptor.

We make tungsten carbide-tipped, perfectly tensioned, razor-sharp, 'like a hot knife through butter, day-in-day-out' saw blades.
Why cut it, when you can Raptor it.

RAPTOR®

JIGSAW BLADES

JIGSAW BLADES

Where speed is everything and you are looking for a really high quality finish on a variety of materials, the Raptor range of Jigsaw blades has you covered.

With various tooth construction and sizes to fit most power tool applications there is a blade to suit your next project.

STRAIGHT CUT WOOD/PLASTIC

Features

- *6 Tooth Blade - ultrafast, rough cutting jigsaw blade - perfect for jobs where speed is everything*
- *HCS Construction - suitable for use on softer materials including wood, plastics and laminates*
- *T-Shank fitting for compatibility with a vast array of popular jigsaws used by tradesmen*

Code	Description	Price £
R25837	100mm x 1.3mm x 6 TPI (pack of 5)	**3.99**
R25838	100mm x 1.5mm x 6 TPI (pack of 5)	**3.99**

FAST CUT WOOD/PLASTIC

Features

- *10 Tooth Blade - for fast, rough cutting jigsaw blade with a much longer life span than HCS blades*
- *Bi-Metal Construction - suitable for use on harder materials including hardwoods, hard plastics and some metals*
- *T-Shank fitting for compatibility with a vast array of popular jigsaws used by tradesmen*

Code	Description	Price £
R25839	100mm x 1.2mm x 10 TPI (pack of 2)	**4.29**

STRAIGHT CUT METAL

Features

- *21 Tooth Blade - perfect for a fine cut in metals between 1 - 3mm thick*
- *HSS Construction - perfect for cutting harder materials, like metal, aluminium and non-ferrous metals*
- *T-Shank fitting for compatibility with a vast array of popular jigsaws used by tradesmen*

Code	Description	Price £
R25840	75mm x 1.0mm x 21 TPI (pack of 6)	**3.99**
R25841	75mm x 1.0mm x 12 TPI (pack of 6)	**3.99**

SCREWDRIVER BITS

SCREWDRIVER BITS

Screwdriver Bits are probably one of the most indispensable Power Tool Accessory items in your tool kit, they're also probably one of the most overlooked as well.

However, at Raptor we know first hand the difference high quality, professional driver bits can make to your efficiency on the job. That's why we took great care over the development of our highly engineered driver bits to make sure that they work to same professional standards that you do.

DIAMOND TIP PZ

Features

- *S2 Steel construction for superior performance and improved durability*
- *Anti-Slip Diamond Tip provides fantastic screw head purchase*
- *Ti-Nitrade Coating for a longer working life*
- *1/4" Universal Fit Shank will work with a vast array of drivers and quick chucks*

Code	Description	Price £
R25843	PZ1 x 25mm (pack of 3)	**2.99**
R25844	PZ2 x 25mm (pack of 3)	**2.99**
R25847	PZ2 x 25mm (pack of 15)	**14.49**
R25845	PZ3 x 25mm (pack of 3)	**2.99**

DIAMOND TIP PH

Features

- *S2 Steel construction for superior performance and improved durability*
- *Anti-Slip Diamond Tip provides fantastic screw head purchase*
- *Ti-Nitrade Coating for a longer working life*
- *1/4" Universal Fit Shank will work with a vast array of drivers and quick chucks*

Code	Description	Price £
R25842	PH2 x 25mm (pack of 3)	**2.99**
R25846	PH2 x 25mm (pack of 15)	**14.49**

TORSION IMPACT

Features

- *S2 Steel construction for superior performance and improved durability*
- *Optimised head design ensures exceptional screw head purchase*
- *Milled Torsion Zone reduced breakages and optimises initial screw head grip*
- *1/4" Direct Drive Universal Hex Shank will fit a majority of Impact Driver chucks directly without the need of an adaptor*

Code	Description	Price £
R25849	PZ1 x 50mm (pack of 3)	**3.29**
R25850	PZ2 x 50mm (pack of 3)	**3.29**
R25851	PZ3 x 50mm (pack of 3)	**3.29**
R25848	PH2 x 50mm (pack of 3)	**3.29**

IMPACT BIT BOX

Features

- *S2 Steel construction for superior performance and improved durability*
- *Optimised head design ensures exceptional screw head purchase*
- *Milled Torsion Zone reduced breakages and optimises initial screw head grip*
- *1/4" Direct Drive Universal Hex Shank will fit a majority of Impact Driver chucks directly without the need of an adaptor*

Code	Description	Price £
R25853	PZ2 x 50mm (pack of 15)	**14.99**
R25852	PH2 x 50mm (pack of 15)	**14.99**

SCREWDRIVER BITS

IMPACT SCREWDRIVER BIT SET

Features

- *Includes the following sizes: T10, T15, T20, T25, T27, T30, T35, T40*
- *S2 Steel construction for superior performance and improved durability*
- *Optimised head design ensures exceptional screw head purchase*
- *Milled Torsion Zone reduced breakages and optimises initial screw head grip*
- *1/4" Universal Fit Shank will work with a vast array of drivers and quick chucks*

Code	Description	Price £
R25857	8 piece set	**3.99**

QUICK RELEASE IMPACT BIT HOLDER

Features

- *Auto-Locking Bit Holder allows for simple, one handed operation*
- *Slim profile design maximises access for use in the tightest of installations*
- *Specifically engineered to be more resistant to shocks caused by prolonged use of an Impact Driver, resulting in a much longer working life*
- *1/4" Direct Drive Universal Hex Shank will fit a majority of Impact Driver chucks directly without the need of an adaptor*

Code	Description	Price £
R25854	65mm	**8.99**

IMPACT BIT SET

Features

- *32 piece set includes the following components: Slotted: SL3, SL4, SL5, SL6 - Orange Ring ID*
- *Philips Head: PH1, PH2 x 2, PH3 - Red Ring ID*
- *Pozi Head: PZ1, PZ2 x 2, PZ3 x 2 - Blue Ring ID*
- *Hex Head: 3mm, 4mm, 5mm, 6mm Yellow Ring ID*
- *Torx Head: T10, T15, T20, T25, T27, T30, T40 Light Yellow Ring ID*
- *Security Torx Head: T10, T15, T20, T25, T27, T30, T40 Dark Blue Ring ID;Quick change holder*
- *Black Oxide Powder Coating resists oxidisation resulting in longer bit life*
- *Colour coded ID rings for each bit type makes it much easier to identify the correct bit*
- *Auto-Locking Quick Change Bit Holder allows for simple, one handed operation*
- *Plastic hardcase keeps all of the bits secure and in one place whilst also being compact enough to keep in your tool bag or work trouser pocket*

Code	Description	Price £
R25858	32 piece set	**39.99**

IMPACT SOCKETS

IMPACT SOCKETS

We've all been on that job where you have every single screwdriver, Torx and hex bit at your disposal and you come across a corroded, stuck nut and bolt.

For that very reason we have developed a small range of the most common sizes you're likely to encounter on the jobsite to make sure you're equipped to take on any challenge the jobsite throw at you.

IMPACT SOCKET ADAPTOR

Features

- *S2 Steel construction for superior performance and improved durability*
- *3/8" Square Drive Head Profile will fit a vast array of sockets and adaptors*
- *Specifically engineered to be more resistant to shocks caused by prolonged use of an Impact Driver, resulting in a much longer working life*
- *1/4" Direct Drive Universal Hex Shank will fit a majority of Impact Driver chucks directly without the need of an adaptor*

Code	Description	Price £
R25855	3/8" drive	**3.69**

IMPACT SCREWDRIVER SOCKET SET

Features

- *Cro-Mo construction with a thicker wall thickness to specifically withstand prolonged use with impact wrenches and drivers*
- *3/8" square drive will fit a vast array of Impact Wrenches and adaptors*

Code	Description	Price £
R25856	3 piece set	**5.99**

RIP UP THE RULE BOOK

When the going gets rough, release the Raptor.

Nothing beats a Raptor hand tool. They're made to be uncompromising, to tear through the toughest jobs and to be the only one standing when the dust settles. A perfect marriage of form, function and ferocity, Raptor tools aren't waiting to be used, ***they're waiting to be unleashed.***

RAPTOR®

Buy exclusively from Wolseley at ***raptortool.co.uk***

UNLEASHED.
QUALITY TOOLS DESIGNED FOR THE TOUGHEST JOBS.

Even the most experienced professional doesn't know what the working day will bring.

Which is why we design and build all our products to perform in the most demanding environments, to the highest standards. Day in, day out, professionals rely on our kit to get the job done, quickly, efficiently and safely. They don't worry about what the job will bring, ***they just want it to 'bring it on!'***
