The future is in your hands
Define the future of A/C

The multi award-winning Sky Air A-series with ultra-efficient Bluevolution R32 technology, available in three models: the world-class Alpha, Advance and Active.

Sky Air with R32 delivers future-proofed, best-in-class climate control for your business and customers.

Design flexibility. More compact. Quieter. With an extended operating range in all climate conditions.

Help is at hand. Quicker and easier installation and usability, even for replacement systems.

Daikin at the heart of the system. Exceptionally low running costs. Even lower environmental impact.

All thanks to Daikin's tried, tested and trusted technology.

Geared for comfort. Optimal remote control, geared to your customers' individual needs.

R32 is an industry revolution. Be part of it.

Get ahead of the competition.

Beat the heat this summer!

The Pump House portable air conditioners are suitable for offices, computer rooms and light commercial use. The cooling only model is ideal for cooling flats, conservatories or loft conversions during hot summer months.

The heat pump model can also be used as an energy efficient form of heating during the cold months.
