

## Boiler Condensate Tank Pump Kit

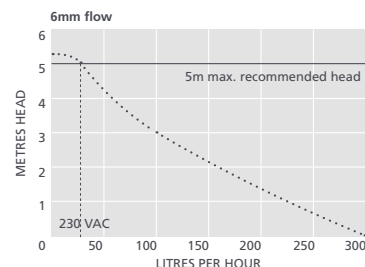

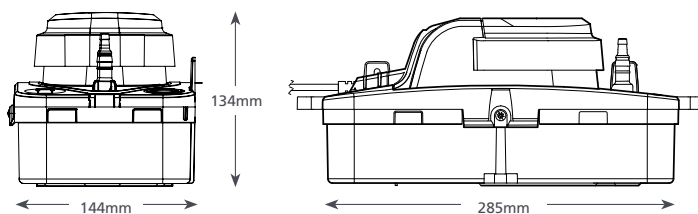

Product code - 667888

The **Center Boiler Condensate Pump Kit** offers both high performance and efficiency in a compact, space saving package. The pump is engineered specifically to collect excess condensate water that is produced by boilers and discharge it safely up to a maximum head height of 5 metres. The Center Boiler condensate pump also features a non-return valve, a pre-wired safety switch and plug and play connectivity; making it the perfect, high performing, easy to install and maintain Condensate Pump.

### Features and benefits

- Complete kit includes: 2 meter plug and play power cable, 6 meter discharge hose and bayonet adaptor
- Compact pump design; perfect for installation in tighter locations
- Certified and complies to Low Voltage Directive (LVD)
- 1.7L tank capacity
- Integrated non-return valve

### Technical specification

Max flow	300L/h @ 0 head
Max rec head	5m
Tank capacity	1.7L
Noise level	49db(A) @ 1m
Power supply	230 VAC, 0.8A, 50Hz
Rated	5 mins on, 5 mins off
Class	I appliance
Max unit output	200kW / 682,000 Btu/h
Max water temp	60°C / 140°F
Inlet/Outlet	x4 21-27mm in, 6-10mm out
IP protection	IP24
Safety switch	3.0A normally closed
Thermal protection	Yes
Ph rating	2.2
